A RICH BRIDE.

Miss Lena Caldwell Gives Her Wealth for a Title—Mary Anderson, the Actress, Weds.

WASHINGTON, June 17.—The wedding of Lena Caldwell, one of the rich and somewhat eccentric sisters, whose large fortunes have been coveted by the titled gentry of Europe, and the Baron Von Zedwitz, German minister to Mexico, took place this morning in the chapel connected with the new Catholic university which has been lately built by the munificient gifts of the Caldwell sisters.

The event, though a notable one, has not stirred society to its depths, for the young ladies have not been a part of the social structure here. They have spent most of their adult years in Europe, and have few friends among society people in Washington. The Baron came up from Mexico on Friday and took apartments at Welickers, and the Misses Caldwell with their aunt and cousin, Mrs. E. C. Donnelley and Miss Donnelley, came over from New York Monday and took quarters at the Arlington. The wedding arrangements have all been conducted by Miss Gwendoline Caldwell and Mrs. Donnelley, and are very simple in character. Less than fifty invitations were issued verbally to the chapel and to the wedding breakfast at noon at the Arlington.

The main chapel of the university, where the wedding took place, was built out of a donation of $50,000 made by the bride of to-day for that purpose. The interior of the chapel was decorated with the conventional palms and other greens, bride roses and twining plants. The altar, with its bright candlebra, shone forth against a background of green and gave an air of grandeur to the simplicity of the other parts of the chapel.

There was little formality about the scene other than that given by the impressiveness of the ceremony and the quiet grandeur of the altar decorations. With one or two exceptions the members of the diplomatic corps present wore conventional morning dress. Preceded by the ushers, the bride, leaning on the arm of Mr. Eugene Kelly, of New York, one of her guardians, walked to the altar, where she was met by the groom and his best man, Baron Sheck Von Steinberg, of the German legation at Washington. Baron Zedwitz wore the court uniform of a German field officer, consisting of a blue frock coat, splashed with white cord, white doeskin trousers and patent leather boots. Both wore swords and carried plumed helmets in their hands.

Bishop Spalding, of Peoria, the spiritual guardian of the Caldwell sisters, performed the ceremony, assisted by Bishop Kean, the rector of the University. Mr. Fry, of New York, the other guardian of the sisters, gave the bride away. At the conclusion of the marriage services a low mass was celebrated.

Before the newly made baroness and her husband left the altar, Bishop Spalding, in a voice that trembled with emotion, gave them his blessing and a few words of advice and announced that he had received a cablegram from the pope, sending congratulations and a blessing.

MARY ANDERSON.

LONDON, June 17.—Miss Mary Anderson and Mr. Antonio Navarro were married to-day at St. Mary's Roman Catholic church at Hampstead. Miss Anderson drove to the church in a carriage, the windows and blinds of which were completely closed. The ceremony was of the plainest possible description. There was no choir present, the music being rendered by an organ.

VICTORIA WEDS.

Victoria Sackville West, daughter of Lord Sackville West, late minister from Great Britain to the United States, was to-day married to her cousin, Lionel, who is heir to the family estate of Seven Oaks.

THE FARM HILL HORROR.

Rescuing Parties Working to Reach the Entomed Miners.

DUNBAR, Pa., June 17.—The efforts of the rescuing parties to reach the thirty-two entomed miners at the Farm Hill mine, where the explosion occurred yesterday, were unavailing. It was determined this morning to cut off all fresh air and let the mine burn itself out and then recover the bodies of the victims. The coroner is on the ground. He viewed the remains of the two dead bodies recovered yesterday, but refuses to hold an inquest until the others are recovered.

Arkansas Democrats.

LITTLE ROCK, Ark., June 17.—The town is full of delegates to attend the democratic state convention which convenes at noon to-day. James P. Eagle will probably be nominated for governor, and B. B. Chism for secretary of state. It is understood that the convention will indorse Cleveland as the democratic presidential nominee in 1892.

Generous Donation.

PITTSBURG, Pa., June 17.—It is expected that Andrew Carnegie will induce Mrs. Mary Shenley to give to the city a twenty-acre site for the $1,000,000 free library which Mr. Carnegie proposes to build for the city.

VOLCANIC WORKINGS.

One of the Peaks of a Mountain Disappearing.

REDDING, Col., June 17.—One of the peaks of Mount Shasta has disappeared. The top appears to have been cut short off and to have fallen into the crater below, the depths of which have never been penetrated by the eye of man. It is thought that the absence of this old land mark may indicate further demonstrations of a volcanic nature. Fire has long been known to exist in the crater, and the lava formations of the valley and on ridges below it gave rise to the question, may not the convulsion of ages past be repeated? An attempt will be made as soon as possible to explore the mountain.

SEND THEM TO PRISON.

A Brutal Prize Fight Fought on Long Island.

NEW YORK, June 17.—Paddy McBride, of Philadelphia, and Jimmy Lynch, of this city, met in a skin tight glove fight to a finish this morning at Oak Point, o nLong Island Sound. One of the most desperate contests seen in the ring in this vicinity for many a year was witnessed by over 200 enthusiastic sports. The men battled for a $1,000 stake and an added purse of $500. McBride from the outset was handicapped with a sprained arm, but fought, rather than forfeit. In the eighteenth round he was knocked out.

FAINTED IN HIS PULPIT.

When He Heard That His Son Had Been Murdered.

SAN ANTONIO, Texas, June 17.—The grand jury yesterday indicted for murder, Jos. Wilkins and Jas. Stevens, colored, the policemen who on Sunday shot and instantly killed a young cow boy named Collins. It is learned that Collins' father, who is a Methodist minister at Pearsall, was holding services when he heard of his son's death and that he fainted in the pulpit. Public opinion strongly condemns the shooting.

STENOGRAPHER DEAD.

Death of John G. McElhone, Chief Stenographer of the National House.

LOVE BEATS STRONG

In an Arch Duchess' Heart and She Renounces Her Claims to a Throne to Marry Whom She Will.

VIENNA, June 17.—In the presence of the Emperor, the courtiers, Count Kalnoky and the Arch Bishop of Vienna, the Arch Duchess Valeries yesterday abdicated all her claims to the throne of Austria. Her action is taken in order that she may be enabled to marry whom so ever she pleases, free from all considerations of state policy.

SUICIDES IN HIS CELL.

LONDON, June 17.—The German dentist, Arenmann, who, on November 19, shot and dangerously wounded Judge Bristowe, of the Nottingham county court, and who has since been in prison, to-day committed suicide in his cell. An adverse decision against Arenmann by Judge Bristowe was the cause of the shooting.

DOUBLES THE DUTY.

SHANGAI, June 17.—A proposition has been made by the viceroy of the province of Quang Tung to double the duty on cotton yarn and piece goods and to increase the opium duty by 20 per cent. The proposals provide that syndicates shall be charged with the duty of collecting the revenue accruing. British traders are strenuously opposing the new plan.

AGAINST SLAVERY.

BRUSSELS, June 17.—In the anti-slavery conference the American and Dutch delegates are persistent in their opposition to the import duties proposed for the Congo state. The delegates from the United States announced that the consent of that country will depend upon arrangements which go beyond this conference.

WASHINGTON.

Business Done in the National Legislature—The Silver Bill.

WASHINGTON, June 17.—The republican members of the senate finance committee have completed the consideration of the tariff bill. If nothing unexpected happens, it will be reported to the senate to-morrow.

The senate, by a vote of 50 to 14, rejected the provision that the treasury notes issued for silver shall be a legal-tender in payment of all debts, public and private.

The senate, by a vote of 57 to 7, struck out the bullion redemption clause in the house silver bill. By a vote of 16 to 46 the senate refused to strike out section six of the bill, which provides for a resumption of coinage when silver reaches a certain valuation.

The senate, by a vote of forty-three to twenty-four, adopted a free coinage amendment offered by Senator Plumb to the silver bill declaring the standard silver dollar and the standard gold dollar equally a legal tender for all debts public and private. The announcement of the vote was greeted with applause from the galleries.

The house agreed to the conference report on the bill for a public building at Alexandria, La., with the limit of cost fixed at $60,000.

SHIPPERS' PANIC,

Caused by a Strike on the Nickel Plate.

CLEVELAND, Ohio, June 17.—The strike last evening was brought about by the Cleveland and Pittsburg and Nickle Plate yardmen who succeeded in getting the other roads out with them. The Big Four and Erie managers tried to head off a strike by advancing wages to the Lake Shore rate, but did not succeed. Only one-half of the strikers belong to the union, and those who do are in the movement under a sort of protest. This fact causes the managers to expect a break in the ranks.

The leaders of the strike declare that both divisions of the Lake Shore between this point and Buffalo and the Cleveland divisions on all the other roads will be tied up if necessary to aid the strike. Shippers are in a panic. Some of the yards are already full of cars and trains are being side-tracked along the roads to prevent a blockade.

PITCHED BATTLE

Fought in Alabama Between Negroes and White Men.

BIRMINGHAM, ALA., June 17.—A pitched battle between negroes and white men was fought yesterday morning at Brookside, a mining town. Tom Redmond, the leader of the negroes was killed, and Jim Dowell badly wounded. Tom Ayres, white, received a slight flesh wound and was the only white man hurt. Several negroes were captured by the whites who threatened to lynch them last night. Both sides are well armed and more bloodshed is expected.

Was a Miscreant.

LITTLE ROCK, Ark., June 17.—Sunday night some unknown person entered the servant's room at the residence of Rev. W. H. Vernon, and with a knife slashed the sleeping servant, Betty Jones. An ugly gash was inflicted, extending across her hips.

London Race.

LONDON, June 17.—At Ascott to-day the race for the bi-ennial stakes was won by Simonian. The race for the Prince of Wales stakes was won by Alloway, with Blue Green second and Hebrides third.

THE STRIKE IS ON!

Ten Thousand Men and Women Cloak Makers go Out on a Strike at New York.

NEW YORK, June 17.—The big strike of cloak makers, tailors, finishers, cutters, pressers and operators is on. Nearly 10,000 men and women went out on the strike this morning and the cloak manufacturers trade is practically at a stand still.

It was predicted yesterday that unless a satisfactory settlement could be reached between the locked out cloak cutters and the manufacturers the workmen in the other departments would quit work. Last night they notified their employers that they would not return to work until the difficulty with the cutters had been adjusted.

The strikers have concluded to have nothing to do with the state board of arbitration and mediation. They allege they are strong enough to fight their own battles without any outside interference. There will be a meeting of the cloak manufacturers at 5'clock this afternoon.

AGAINST BRITIAN.

The Feeling Among the People at Bay St. George.

NEW YORK, June 17.—A special to the Herald from Bay St. George says: "I have just reached this out-of-the-way place after a 600-mile voyage on a steamer from the coast of New Foundland. I find the feeling here much stronger against the home country than against France. This is because of the apathy in not trying to modify the fishery treaty or at least to compel France to adhere strictly to it

"All is quiet here now, and for the present season, so far as St. George is concerned, the crisis is over. The French fishing vessels have all gone and the natives are left to fish in peace. There are no French war ships in the harbor; the Pelican, a British war ship, is the only one here. There is much indignation over the modus vivendi, and ominous troubles are reported elsewhere.

News has just reached here of an outbreak at Lascia, a small fishing village on the northern coast, within the French treaty limits. The inhabitants attacked a French fishing establishment consisting of fishing boats and other property left at that place by French fishing schooners last year. They set fire to the place and destroyed all the property. Local magistrates were powerless to interfere. The occurrence shows the intense feeling of the natives against the French.

Lascie is several hundred miles from here, beyond the telegraph. The outbreak occurred May 15th and the news has just been brought in by a fishing boat. Quite similar affairs have occurred around the north and east coast. It is not likely that France will make any claim for damages. It is probable that the British war ship, Emerald, heard of the affair at Lascie and proceeded there. She left here two weeks ago for Port Saunders, on the north coast, to meet the French man-of-war Laperous.

THE LAST SALOON

At Santa Fe, Ind., Closed by the Authorities.

PERU, Ind., June 17.—The last saloon in the village of Santa Fe, this county, was closed Saturday night for good, and amid much rejoicing by the temperance people of this city and that town. A large delegation, accompanied by the band, were in attendance from here.

A monstrous meeting was held in church and addresses up to a late hour were made by leading workers and ministers of the vicinity. John York, the saloon keeper, gave bond and his pledge not to engage in the business for two years within one mile of town, nor to rent his property for that purpose. In return the temperance people abandon the forty odd indictments which they have against him.

MILLERS MEET.

They Hold a National Meeting at Minneapolis.

MINNEAPOLIS, Minn., June 17.—The Millers National association of the United States convened in fourteenth annual session in Harmonia Hall, this city, to day; 250 delegates being present from all sections of the country. During the meeting special trains from Boston, St. Louis and Chicago arrived with the delegates.

The morning session was devoted to routine reports from the executive committee and the officers. The unanimous opinion of the delegation is that some steps should be taken to change the form of the present bill of lading in order to hold railway and steamboat companies responsible for delays in shipment and some change will undoubtedly be made.

Cholera Appears.

MADRID, June 17.—The government has ordered troops to proceed to the province of Valencia and establish there a military cordon about the districts in which the cholera has made its appearance. Seven more cases of the disease are reported as having developed in Puebla de Rugat.

A Michigan drayman fell asleep while at work the other day and never awoke, that way!

In the morning game to-day between New York and Boston, National league, the game was won by the former by a score of 4 to 2.

Dixon, the catcher, who came here upon request of Manager Meyer, has not been signed with the Fort Wayne's, as had been expected. He left this afternoon for Utica, N. Y., to join the Johnstown, N. Y., club.

Keogan, the new pitcher for the Fort Wayne club, was expected to arrive in the city this afternoon. He was a star pitcher with the Chicago Maroons, being an alternate with Dwyer, the present crack Brotherhood pitcher.

Fort Wayne goes to Kokomo to-mor row for two games and also plays two games at Marion and Elkhart, returning here to play Muncie June 26, and remaining here until July 5. On July 4 the home club will play Bluffton at League park.

The following is the batting average of the Fort Wayne players in the twenty-two games on the home grounds: Scott, .347; Ferris, .337; Quirk, .318; Gallagher, .315; Allen, .312; Downing, .300; Ellery, .285; Bruton, .259. Ferris and Gallagher played in only nineteen games. Quirk has the most hits, 35, followed by Allen and Scott, with 34 and 33 respectively. The team's average is .317. The club has made 198 runs, 288 base hits, 30 sacrifice hits and has stolen 82 bases. Bruton's average is much higher, including games away from home.

DOSWELL-RUSHER.

A Quiet Wedding to Take Place Tomorrow.

To-morrow, at the home of the bride's parents, Pierceton, Ind., will occur the marriage of Miss Laura M. Rusher, to Mr. A. E. Doswell, both of this city. This is a matrimonial surprise. Miss Rusher has been for some time past bookkeeper in the office of the D. N. Foster Furniture company. Her charming womanly graces, made perfect by her intelligence and sunny disposition, places her a favorite with her acquaintances. The groom is a a son of John H. Doswell, superintendent of Lindenwood cemetery, and is a florist of much promise. He at present has charge of the conservatory on the Bass farm. Mr. and Mrs. Doswell will return to this city and will occupy apartments on West Main street. A host of friends will congratulate them.

Walker's Baloon.

ATLANTA, Kas., June 17.—A baloon has been seen drifting about in this vicinity since Saturday. Some memorandums which fell from it and were picked up state that it is Professor Walker's baloon from Dayton, Ohio. The occupants had lost their balast and were adrift, suffering from cold.

Equality.

In France, where there is more talk of equality than there is realization of it, a gentleman fell into a fit of wrath one day with his valet, because the man had attempted to put an extra "shine" on his patent-leather boots. "You villain!" said the master; "you imbecile! you calf! Didn't you know any better than to do that?"

The man made no reply, but carried his woe to the cook and the chambermaid.

"The idea," he exclaimed, "of using such terms as that to a *valet de chambre* in this century of equality in which we live! Why, a gentleman would hardly talk to his coachman in that way!"

A LIGHT VERDICT

Returned in the Case of Haberkorn vs. the White Water--Davidson Murder Trial.

Yesterday at 4:10 o'clock the jury in the case of T. H. Haberkorn vs. the White Water railroad, for damages, retired to deliberate. They remained out until 9 15 o'clock this morning, about seventeen hours, and then, through Foreman McCrory, reported a verdict of $362.50 for the plaintiff. It was a big disappointment to the plaintiff and to the plaintiff's counsel, L. M. Ninde.

The demand was for back salary claimed and for the use of divers patent air brake appliances, the amount petitioned for amounting to about $7,000. The jury was considerably divided for the first few ballots, and not until after 9 o'clock, did they come to an agreement, when the verdict was returned, the amount representing the defendant company's responsibility for use of said patents. The jury consisted of eight farmers and four residents of this city.

A motion will be made for a new trial or the case will be appealed to the supreme court. Bell and Morris ably defended the company.

THE DAVIDSON MURDER TRIAL.

This is the day set for the beginning of the trial of Thomas Davidson, charged with the murder of his uncle, Thomas Davidson, the case being transferred on a change of venue from this county to the Whitley county court, Columbia City, Judge Adair presiding. Prosecutor J. M. Robinson for the prosecution, Judge C. M. Dawson and Judge S. M. Hench for the defense, and a large number of witnesses, both state and defense, left on the morning train to attend the trial, which will occupy a week or ten days time. The circumstances of this tragedy are still fresh to the memory of nearly every one in the community. It will be recalled that the body of Thomas Davidson, uncle of the accused, was found lying on the barn floor on his premises near Arcola, the position of the body indicating that the man had been kicked to death by a horse. The nature of the wounds led to an investigation. Young Davidson, an unmarried nephew, was suspected and subsequently placed under arrest. The report that young Davidson will try to prove an alibi is doubtful.

COURT CULLINGS.

In Justice Tancey's court a verdict was given the defendant in the case of Dr. Carl Proegler vs. John J. Searson for $15 on account; Louis Wolf vs. John E. Ohnhause, judgment for plaintiff; Butts vs. Hilgemann, ejectment ordered in favor of plaintiff.

Before Justice Ryan, to-day, George W. Barner was bound over in the sum of $200 for surety of the peace, on a charge preferred by his wife. Barner had just finished a jail sentence for beating his wife, and upon gaining his liberty made threats to the woman. Drink causes this viciousness as Barner is called a peaceable man when sober.

Frank Leikauf enters suit in Justice Ryan's court to recover two calves from Jules Hugenard, which were purchased by the latter from a farmer to whom Leikauf had paid some money for the animals.

Justice France to-day acquitted William McCormick of a charge of provoke.

Justice France fined Charles and Alice Bartley for provoking Helen Barnard.

Justice France had William Hutchins, Charles Armstrong and George Bauley capiased on complaint of John Milligan and Daniel Hill for board. The fellows settled.

In the superior court, in the case of Fred Dalman vs. Paul Koehler and Amelia Mansdorfer, a judgment and decree of foreclosure was rendered by Judge Chapin in favor of the plaintiff for $1,763.67. On cross complaint a judgment of $277 was rendered against Amelia Mansdorfer in favor of Paul Koehler.

Phillip Mertz enters suit in the superior court for foreclosure against Lottie D. and W E Lewis. C. Holder, of Monroeville, attorney for plaintiff.

THE democratic county ticket is receiving praises on every hand.

THE democratic county central com will meet in this city on June 28.

IN the awful mine disaster, near Dunbar, Penn., yesterday, forty persons lost their lives.

THE watermelon is here. The physicians will now have an increased number of professional visits to make.

THE Christian Endeavor convention at St. Louis, a most enthusiastic body, attended by 5,000 delegates, adjourned last night.

THE excursion season has commenced in earnest, and Rome City and Warsaw will now catch a good many of our Fort Wayne people for a day's pleasure and recreation.

THE association of Indiana county superintendents is in session at Indianapolis to-day. Supt. Geo. F. Felts, of this city, will read a paper on the "Compensation of County Superintendents Under the New School Book Law."

THE estimated expenditure for pensions next year is $167,419,731. This sum is nearly three times greater than the total cost of carrying on the government the year before the war. It is equal to the combined annual cost of maintaining the vast standing armies of Great Britian and Germany.

EVERY citizen should be interested in aiding enumerators to get a correct census that Fort Wayne may have a proper count and take her rightful place among the cities of the state. If enumerators should fail to call on a family the head thereof should see at once that all the information is furnished to the enumerators.

THE Northern Indiana Orphans' Home of Mishawaka now receives orphans from twelve counties. It has grown so popular that it is to be reorganized, and its field will probably be extended to include the entire state. The organization will probably be called the "Children's Aid Society of Indiana." The demand upon the home for children to adopt is greater than it can supply.

WESTMINSTER seminary, which held its annual commencement exercises last evening, is one of the grand educational institutions of the city and the state. It is doing a noble work for our girls and educates them for the practical duties of life, combining moral with mental instruction. It is, we are glad to note, flourishing and growing in attendance with each passing year. Such institutions deserve the "God speed" and the support of every citizen.

THE democratic county ticket is regarded as a strong one by everybody, even republicans adding words of praise to its excellence. Every nomination made is a good one and there is not a candidate named who can not, on the grounds of personal worth, receive the support of every democrat. There is not a weak spot in it. The democracy did their work and did it well. Concerning the ticket, the Daily News says: "The ticket put in nomination by Allen county democrats on Saturday, is one of unusual strength. It contains drawing features at every point, and what is better still, and quite unusual, there is not a bummer among the list of candidates. With a ticket like this, the democracy of Allen county have little to fear from internal dissensions on the opposition of a party comprising a weak minority of the voters."

WHITE HOUSE EXPENSES.

The lot of the president of the United States is not entirely an unhappy one, so far as his domestic arrangements are concerned. He has no occasion to bother himself much about market bills, or rent, or servants, or gas or plumbers' bills. With ordinary prudence he can manage to pull through on the allowances made by congress, without involving himself in debt, as Jefferson and some of the earlier presidents are said to have done during their occupancy of the executive mansion.

A glance through the pending sundry civil bill, supplemented by the regular legislative and executive appropriation bill, discloses that Mr. Harrison is likely to be able to make both ends meet at the close of the coming fiscal year. As a starter, he has his salary of $50,000. There is a further sum of $25,000 allowed him, to spend as he sees fit, in recarpeting his rooms and making his domestic apartments comfortable in the matter of furniture. Sixteen thousand dollars or thereabouts is set aside to pay for his gas and electric lights. Three thousand dollars is allowed him for coal. To keep his greenhouses in order so as to furnish him with buttonhole bouquets and flowers to present to his friends, $7,000 is appropriated. A thousand dollars is allowed him for his front garden, and $5,000 for his back garden. If his kitchen pipes should happen to burst in the winter there is a $2,500 plumber's bill for him to draw upon.

He has no servants to provide except a cook and scullions and chambermaids. Congress furnishes him with a steward and everything else in the servant line, at a cost of about $15,000. He has not even to provide matches. The appropriation for fuel and lights distinctly specifies that it shall include matches. He has to buy his butcher's meat and groceries and his wine, however, when he gives a dinner party. Pretty well all else is given him. And lest there should be something overlooked, a contingent fund of $8,000, which he is at liberty to spend as he thinks proper, rendering no account to anybody, is added as a cap sheaf. The total appropriations for the domestic economy of the executive mansion, excluding the salaries of the private secretaries and clerks engaged solely on official business, foot up $132,500.

THE Indianapolis newspapers are charging that the census of that city is not being carefully taken. The enumerators have finished their work and hundreds of persons are turning up who have not been counted.

The National Union contributed four beautiful floral offerings at the funeral of little Allen Harmeyer, the lad who was killed last week by being run over by a street car. The street car drivers of the Hanna street line and others also sent beautiful offerings, all of which made thankful the hearts of the grief-stricken parents, Mr. and Mrs. Henry J. Harmeyer.

The Clavis club, a chorus of ladies; and the Clef club, a chorus of gentlemen, were pleasantly entertained by Prof. W. F. Heath and wife last evening. The organizations have been instruded by the professor. Besides the parts taken by the clubs referred to numbers were rendered singly by Misses Josie Hartman, Grace Hayden, Jennie Ninde, Minnie Thompson; and Messrs. Nonnamaker and Mahin.

There are 40,000 primary schools in Russia.

For the cure of the inflammation and congestion called "a cold in the head" there is more potency in Ely's Cream Balm than in anything else it is possible to describe. This preparation has for years past been making a brilliant success as a remedy for cold in the head, catarrh and hay fever. Used in the initial stages of these complaints Cream Balm prevents any serious development of the symptoms, while almost numberless cases are on record of radical cures of chronic catarrh, after all other modes of treatment have failed.

There are 30,000,000 watermelons in Georgia this year.

CLOSING SCHOOL DAYS.

The Commencement Exercises of Westminster Seminary, Fort Wayne's Grand School for Girls.

The closing exercises of the Westminster seminary at the First Presbyterian church drew to the magnificent audience room of that edifice last evening a large and cultured assemblage, and as the great pipe organ pealed forth its silvery notes, under the skillful hands of Prof. C. F. W. Meyer, and the teachers and pupils of the seminary entered the church, marched slowly up the aisles and took seats reserved for them in front, the scene was a pretty one. In advance were two little misses carrying in their hands wands, from which floated ribbons of red, white and blue. The two graduates of the class—Miss Lida Baumgartner and Miss Harriet Schulze—followed and behind them came the pricipals of the school and the teachers and the pupils of the seminary, the latter attired in white and carrying boquets of flowers.

The exercises of the evening were opened with prayer by Rev. J. M. Boggs, followed by a song from the Haydn quartette and the introductory address by Rev. D. W. Moffatt, D. D. The speaker spoke of the growth of the educational spirit in Indiana and in our own city, and paid a deserved tribute to Westminster, which was doing such a grand work for the girls.

He was followed by Rev. Meade C. Williams, D. D., in the address of the evening. It was an interesting and brilliant effort, and he urged upon his hearers many beautiful and practical thoughts. Gain an education and cultivate your minds, he said, not so you may become conspicuous in life's battle, but that you may be useful and that the world may be better by reason of your having lived in it.

Miss Tower then sang a beautiful solo and Miss Sharp, one of the principals of the schools, presented the graduating class with an appropriate speech and Dr. Moffatt conferred upon them the diplomas. The young ladies followed with well prepared and excellently delivered addresses, Miss Baumgartner delivered the "Vale" and Miss Schulze the "Salutamus." Mrs. D. B. Wells, one of the principals of the school, then delivered, in her own peculiarly pleasant and forcibly and interesting style, the closing address, using for her theme "The Stirrup Cup." She spoke briefly and then bade the young ladies goodbye, thanking the audience, the singers, the speakers and the friends of the institution generally for their kindnesses, and after a song by the Haydn quartet, the exercises closed with the benediction by Rev. J. L. Lepper.

A reception followed at the Westminister seminary from 10 to 12 o'clock. It was a brilliant affair and some three hundred guests were charmingly entertained. Refreshments were served and the hours spent in a social way and thus closed another year of this grand school for girls.

The seminary has become one of the educational institutions of the city whose annual commencements are looked forward to with rare pleasure. It was established in 1883 by Miss C. B. Sharp and Mrs. D. B. Wells, who are its present principals, and under whose supervision it has become one of the most valuable training schools for young ladies in the west. They purchased property in the western confines of the city and by a series of improvements have made the commodious buildings and grounds admirably adapted for the purpose to which it is devoted. It has become a pleasant home for their young lady students, who are surrounded with all the comforts and all the protecting influences of home life.

The course of study is comprehensive and valuable and embraces just what every young lady should know to fit her for the responsible duties of life, and the graduate is sent from its halls with a mind well stored with knowledge and a Christian character developed with the instructions received. The institution has an able corps of instructors, is in a flourishing condition and has a brilliant future. May Westminster Seminary live and grow with each passing year and may its instructors have Heaven's richest blessings showered upon them for the good work they are doing for the girls of our state.

That tired feeling now so often heard of, is entirely overcome by Hood's Sarsaparilla, which gives mental and bodily strength.

Gen. Crook as a Huntsman.

"Gen. Crook was very fond of hunting," said Lieut. Kennon, "and was one of the best shots I ever saw. When he was a young officer he always did the hunting for his mess. In those days sometimes the mess bills exceeded the officers' salaries, and I have heard Gen. Crook tell how they made him caterer, and by his intimate knowledge of the Indians' economical methods of cooking, and his good luck at hunting, the mess was soon able to declare dividends. I have been with him on many hunting trips, and I never saw a better or a steadier shot. Sage hens are not the easiest game to bag, and yet I have seen him repeatedly drop a bird out of a flock with each barrel; but not only that, he would kill a chicken every time. His eye was so quick that while aiming he could select the chicks instantaneously. With all his experience and trials Gen. Crook was as simple as a child. He was straightforward and truthful, and had no patience with concealment or trickery. He never broke his word to white man or red man."—*Washington Star.*

Vanity that Kills.

Overweening egotism is as potent a cause of suicide as any other. More than one couple have died in each other's arms with the desire and belief that their names will go down to posterity with the same fame that lingers over the tomb of Abelard and Heloise, and young men have exhausted their brains to concoct letters that should create a sensation over their ashes. I recall one youth who left a long letter to say that he blew his brains out because he could not wait for natural death to reveal to him the mysteries of the next world; another who argued on page after page to demonstrate his right to make away with himself, and more than one couple who arranged their simultaneous exit with as much care as if they were on the stage with the world for an audience. A wretched vanity, but does not the wisest of men say that all is vanity with us poor mortals?

The Kabo corset that brings a woman to perfect form if she use only laces it tight enough—for it never stretches or breaks its "bones" or rolls up—has soft eyelets that do not cut the laces.

Soft eyelets are loops of corset lace instead of metal eyelets.

If the Kabo corset fails in a year in any part but the steels—no way has yet been invented to make unbreakable steels—you get your money back from the store where you bought it.

You wear the Kabo corset two or three weeks; and, if not satisfactory, take it back and get your money again.

GREED OF GAIN

and thirst for pleasure. The ruling passion of the human family. In grasping after riches the brain is taxed, the nervous system strained. In the pursuit of pleasure the body is tortured by fashion's despotic sway; the hours designed for repose are devoted to exhausting revelry; the stomach is ruthlessly imposed upon; pure water, the natural drink for all created beings, is ignored, and liquid fire is substituted until, ere we are aware of it, disease has fixed its iron grasp upon us. Then we look for the "remedy." To the victim of these follies, we commend Dr. Tutt's Liver pills. They stimulate the liver, strengthen the nerves, restore the appetite and build up the debilitated body.

What Does it Mean?

"100 Doses One Dollar" means simply that Hood's Sarsaparilla is the most economical medicine to buy, because it gives more for the money than any other preparation. Each bottle contains 100 doses and will average to last a month, while other preparations taken according to directions, are gone in a week. Therefore, be sure to get Hood's Sarsaparilla, the best blood purifier.

A MARVELOUS PREMIUM.

THE MUTUAL LIFE INSURANCE COMPANY, OF NEW YORK, SECURES IT.

Nearly $600,000 Paid by Members of one Family for Insurance in the Mutual.—The Most Stupendous Transaction Known in the History of Insurance.—"It has Never Been Done Before; It Never Will Be Done Again."

—E. C. POTTER & CO.—

No. 799. New York, Dec. 24, 1889.

BANK OF NEW YORK.
National Bankers Association.

Pay to the order of L. C. HOPKINS, Genl Executive Agent

Five hundred and Seventy Eight Thousand, Three Hundred and Forty Five ——— DOLLARS.

$578,345 00/100 — 29 DEC 28 1889. — CERTIFIED. Payable through New York Clearing House, N. B. A. — E. C. POTTER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for Insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life's with the annuity feature added. Each policy was for the sum of $100,000 and the insured chose to make but one payment, thus commuting the cost. The insurance covered by the above mentioned premium payment of $578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and Four members of his family. Mr. Theo. Havemeyer, is the Austrian Counsel General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son-in-law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this Insurance.

First, that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected Life Insurance as offering more advantages and greater security than any other form of investment. Second That they had such faith in the management and stability of the Mutual Life Insurance company of New York, that they willingly entrusted to its care nearly $600,000 in cash without any security whatever, and only the PROMISE of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of $578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in merchantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that is'nt an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and sixty millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

FRUIT HOUSE PRICES FOR 1890.

This year opens favorable for the people, so far as the Sugar Market is concerned. Last season the great sugar trust had their grip on the market and made it ruinous to the purchaser—so much so that Sugars were advanced in 60 days at least 50 per cent. This is now over—the Sugar Trust is broken and Sugars have declined to a point lower than they ever were—the last reduction is 1 cent per lb.

We now offer Best Extra C., 6c. Best Standard A., 6¼c.
Powdered and Crushed, 7c. Granulated and Cut Loaf, 7c.

COFFEE, COFFEE—Rio, Java, Mocha and Roasted Coffee.

There has been little change in the Coffee Market the last three months. It is too high yet. The clique has control of the market and keeps prices up. We still sell our best Rio at 22c. lb. This we are enabled to do in consequence of our large purchases and selling direct to our customers—in this way saving the profit of the jobber and wholesale merchant.

Best Rio Coffee, 22c. lb. Choice Old Govt. Java, 27c. lb.

TEAS, TEAS—Young Hyson, Oolong and Japan.

The high price of Coffee has induced a great many to try Tea—and when it is considered that a pound of Tea can be had for the price of a pound of Coffee and that it will go twice as far, it is not to be wondered at that there is a great increase in our Tea Trade. The truth is we sell double the quantity we used to a few years ago. Our motto is selling large quantities at a small profit, for we purchase direct of the Importers and then in selling direct to our customers we save three profits—the speculator, jobber and the wholesale dealer. We sell a good, rich drawing Tea at 20c. lb., and one grade as low as 10c. lb.

Young Hyson Tea, 20c., 30c.; best, 50c. lb.

THOUGHT HE WAS SMART.

But Circumstances Altered His Good Opinion of Himself.

During the present overflow of the Mississippi river a well dressed man, while picking his way through the woods, trying to avoid the water that was rapidly rising, came to a small knoll almost surrounded by the flood; and on the knoll he found a tall, lank fellow sitting on a log. The stranger, delighted at seeing a human being, ran up to the lank fellow and exclaimed:

"I never was gladder to see a man in my life. I have been in these woods nearly a day and a half. My horse and I went down with a caving bank; I managed to save myself, but couldn't save him. Now the question is, how are we going to get out of this infernal place?"

"Don't know," the lank fellow answered, "wallowing" his tobacco about in his mouth.

"Why, don't you know the woods?"

"Wall, did know 'em putty well, but the high water has wiped all the roads out."

"Look here, the water is rising, and this is no time for foolishness. See, we are entirely surrounded."

"Yes, that's so (squirting a stream of tobacco juice through his teeth). Reckon we'll hatter wade."

"Do you know a place where the water is not very deep?"

"I did know yistidy, but the water has riz powerful since then."

"How long have you been sitting here?"

"Set down here this mornin': Come out to look for the cow an' got tired, an' my plan is allus to rest when I git tired. I have hearn it read outen the papers that a good many men die frum overwork, an' sence then I am mighty partickler."

"But how do you expect to get out of this place?"

"Don't know exactly."

"But you've got to know pretty soon, for don't you see how rapidly the water is rising?"

"Yes, 'tis comin' up right peart. You air a stranger down here, I reckon."

"Yes, haven't been here but a week, and if the Lord will only let me get out this time, I'll never come back. I wonder if I can wade out through there?"

"I reckon you can.!"

"I have a half notion to try it."

"But make it a whole one."

"I'll do it. I don't care to stand here till the water comes up round my neck. Well, good-by. If you want to stay here and be drowned it is no fault of mine."

"So long," the lank fellow replied, spitting through his teeth.

The stranger had waded about thirty feet when he lunged off over his head. He spluttered and floundered and finally got back on the knoll.

"Whew! that was awful!" he exclaimed. "You scoundrel, why didn't you tell me?"

"How did I know what sort of a wader you are? Some folks kin wade surprisin' an' then others kain't wade so well. I tuck you fur one of the boss waders, but now I see you ain't."

"I ought to jump on you and beat you. I declare, I don't know what to do."

"Thought you was goin' to jum. on me."

"No, I don't want to hurt you. Look here; in less than a half hour from now this knoll will be under water."

"Ef I was goin' to bet, w'y I'd bet thatter way."

"And are you going to stay here and be drowned?"

"I kain't tell yit."

"You are a fool—that's what's the matter with you."

"Yes, I ain't a s'preme jedge, but I've got mo' sense than to go out in a woods that I don't know anything about an' git drowned."

"But you haven't got enough sense to get out of a woods that you do know som. hing about."

"Oh, I think so." The lank fellow got up, went behind a tree, took up a canoe, and as he was preparing to shove it off remarked:

"I never fool with high water, cap'n, an' ef you buy land down here an' live on it awhile you'll l'arn a little sense yo'se'f. So long."

"What, are you going to leave me this way?"

"Yes, I've got rested now an' must go home an' tell the folks that I kain't find that fool cow."

He shoved off the canoe and got in. "For heaven's sake take me with you," the stranger implored.

"Oh, I reckon it's best not to—might sp'ile you to ride with a fool."

"Come back, my friend, I was hasty."

"Yes, I sorter think you was."

"I didn't mean to call you a fool—I'm the fool."

"An' am I a smart man?"

"Indeed you are."

"The smartest man in this country?" the fellow asked, slowly paddling the canoe toward the knoll.

"Yes, the very smartest."

"Wall, but am I the smartest man you ever seed?"

"Yes, I think you are."

"But you mustn't think—you must know it."

"Well, then, I know it."

"An' don't you think, or ruther don't you know, that I would make a good governor?"

"Yes, I know you would."

"Ur a president either?"

"Yes, you would make a good anything."

"All right, my boy, now you may git in. Oh, I tell you it do a man a power of good to travel round in this part of the country. He l'arns faster than ef he was in college."
—Opie P. Read in Arkansaw Traveler.

THE democratic county ticket is receiving praises on every hand.

THE democratic county central com will meet in this city on June 28.

IN the awful mine disaster, near Dunbar, Penn., yesterday, forty persons lost their lives.

THE watermelon is here. The physicians will now have an increased number of professional visits to make.

THE Christian Endeavor convention at St. Louis, a most enthusiastic body, attended by 5,000 delegates, adjourned last night.

THE excursion season has commenced in earnest, and Rome City and Warsaw will now catch a good many of our Fort Wayne people for a day's pleasure and recreation.

THE association of Indiana county superintendents is in session at Indianapolis to-day. Supt. Geo. F. Felts, of this city, will read a paper on the "Compensation of County Superintendents Under the New School Book Law."

THE estimated expenditure for pensions next year is $167,419,731. This sum is nearly three times greater than the total cost of carrying on the government the year before the war. It is equal to the combined annual cost of maintaining the vast standing armies of Great Britian and Germany.

EVERY citizen should be interested in aiding enumerators to get a correct census that Fort Wayne may have a proper count and take her rightful place among the cities of the state. If enumerators should fail to call on a family the head thereof should see at once that all the information is furnished to the enumerators.

THE Northern Indiana Orphans' Home of Mishawaka now receives orphans from twelve counties. It has grown so popular that it is to be reorganized, and its field will probably be extended to include the entire state. The organization will probably be called the "Children's Aid Society of Indiana." The demand upon the home for children to adopt is greater than it can supply.

WESTMINSTER seminary, which held its annual commencement exercises last evening, is one of the grand educational institutions of the city and the state. It is doing a noble work for our girls and educates them for the practical duties of life, combining moral with mental instruction. It is, we are glad to note, flourishing and growing in attendance with each passing year. Such institutions deserve the "God speed" and the support of every citizen.

THE democratic county ticket is regarded as a strong one by everybody, even republicans adding words of praise to its excellence. Every nomination made is a good one and there is not a candidate named who can not, on the grounds of personal worth, receive the support of every democrat. There is not a weak spot in it. The democracy did their work and did it well. Concerning the ticket, the Daily News says: "The ticket put in nomination by Allen county democrats on Saturday, is one of unusual strength. It contains drawing features at every point, and what is better still, and quite unusual, there is not a bummer among the list of candidates. With a ticket like this, the democracy of Allen county have little to fear from internal dissensions on the opposition of a party comprising a weak minority of the voters."

WHITE HOUSE EXPENSES.

The lot of the president of the United States is not entirely an unhappy one, so far as his domestic arrangements are concerned. He has no occasion to bother himself much about market bills, or rent, or servants, or gas or plumbers' bills. With ordinary prudence he can manage to pull through on the allowances made by congress, without involving himself in debt, as Jefferson and some of the earlier presidents are said to have done during their occupancy of the executive mansion.

A glance through the pending sundry civil bill, supplemented by the regular legislative and executive appropriation bill, discloses that Mr. Harrison is likely to be able to make both ends meet at the close of the coming fiscal year. As a starter, he has his salary of $50,000. There is a further sum of $25,000 allowed him, to spend as he sees fit, in recarpeting his rooms and making his domestic apartments comfortable in the matter of furniture. Sixteen thousand dollars or thereabouts is set aside to pay for his gas and electric lights. Three thousand dollars is allowed him for coal. To keep his greenhouses in order so as to furnish him with buttonhole bouquets and flowers to present to his friends, $7,000 is appropriated. A thousand dollars is allowed him for his front garden, and $5,000 for his back garden. If his kitchen pipes should happen to burst in the winter there is a $2,500 plumber's bill for him to draw upon.

He has no servants to provide except a cook and scullions and chambermaids. Congress furnishes him with a steward and everything else in the servant line, at a cost of about $15,000. He has not even to provide matches. The appropriation for fuel and lights distinctly specifies that it shall include matches. He has to buy his butcher's meat and groceries and his wine, however, when he gives a dinner party. Pretty well all else is given him. And lest there should be something overlooked, a contingent fund of $8,000, which he is at liberty to spend as he thinks proper, rendering no account to anybody, is added as a cap sheaf. The total appropriations for the domestic economy of the executive mansion, excluding the salaries of the private secretaries and clerks engaged solely on official business, foot up $132,500.

THE Indianapolis newspapers are charging that the census of that city is not being carefully taken. The enumerators have finished their work and hundreds of persons are turning up who have not been counted.

The National Union contributed four beautiful floral offerings at the funeral of little Allen Harmeyer, the lad who was killed last week by being run over by a street car. The street car drivers of the Hanna street line and others also sent beautiful offerings, all of which made thankful the hearts of the grief-stricken parents, Mr. and Mrs. Henry J. Harmeyer.

The Clavis club, a chorus of ladies; and the Clef club, a chorus of gentlemen, were pleasantly entertained by Prof. W. F. Heath and wife last evening. The organizations have been instruded by the professor. Besides the parts taken by the clubs referred to numbers were rendered singly by Misses Josie Hartman, Grace Hayden, Jennie Ninde, Minnie Thompson; and Messrs. Nonnamaker and Mahin.

For the cure of the inflammation and congestion called "a cold in the head" there is more potency in Ely's Cream Balm than in anything else it is possible to describe. This preparation has for years past been making a brilliant success as a remedy for cold in the head, catarrh and hay fever. Used in the initial stages of these complaints Cream Balm prevents any serious development of the symptoms, while almost numberless cases are on record of radical cures of chronic catarrh, after all other modes of treatment have failed.

CLOSING SCHOOL DAYS.

The Commencement Exercises of Westminster Seminary, Fort Wayne's Grand School for Girls.

The closing exercises of the Westminster seminary at the First Presbyterian church drew to the magnificent audience room of that edifice last evening a large and cultured assemblage, and as the great pipe organ pealed forth its silvery notes, under the skillful hands of Prof. C. F. W. Meyer, and the teachers and pupils of the seminary entered the church, marched slowly up the aisles and took seats reserved for them in front, the scene was a pretty one. In advance were two little misses carrying in their hands wands, from which floated ribbons of red, white and blue. The two graduates of the class—Miss Lida Baumgartner and Miss Harriet Schulze—followed and behind them came the pricipals of the school and the teachers and the pupils of the seminary, the latter attired in white and carrying boquets of flowers.

The exercises of the evening were opened with prayer by Rev. J. M. Boggs, followed by a song from the Haydn quartette and the introductory address by Rev. D. W. Moffatt, D. D. The speaker spoke of the growth of the educational spirit in Indiana and in our own city, and paid a deserved tribute to Westminster, which was doing such a grand work for the girls.

He was followed by Rev. Meade C. Williams, D. D., in the address of the evening. It was an interesting and brilliant effort, and he urged upon his hearers many beautiful and practical thoughts. Gain an education and cultivate your minds, he said, not so you may become conspicuous in life's battle, but that you may be useful and that the world may be better by reason of your having lived in it.

Miss Tower then sang a beautiful solo and Miss Sharp, one of the principals of the schools, presented the graduating class with an appropriate speech and Dr. Moffatt conferred upon them the diplomas. The young ladies followed with well prepared and excellently delivered addresses, Miss Baumgartner delivered the "Vale" and Miss Schulze the "Salutamus." Mrs. D. B. Wells, one of the principals of the school, then delivered, in her own peculiarly pleasant and forcibly and interesting style, the closing address, using for her theme "The Stirrup Cup." She spoke briefly and then bade the young ladies goodbye, thanking the audience, the singers, the speakers and the friends of the institution generally for their kindnesses, and after a song by the Haydn quartet, the exercises closed with the benediction by Rev. J. L. Lepper.

A reception followed at the Westminister seminary from 10 to 12 o'clock. It was a brilliant affair and some three hundred guests were charmingly entertained. Refreshments were served and the hours spent in a social way and thus closed another year of this grand school for girls.

The seminary has become one of the educational institutions of the city whose annual commencements are looked forward to with rare pleasure. It was established in 1883 by Miss C. B. Sharp and Mrs. D. B. Wells, who are its present principals, and under whose supervision it has become one of the most valuable training schools for young ladies in the west. They purchased property in the western confines of the city and by a series of improvements have made the commodious buildings and grounds admirably adapted for the purpose to which it is devoted. It has become a pleasant home for their young lady students, who are surrounded with all the comforts and all the protecting influences of home life.

The course of study is comprehensive and valuable and embraces just what every young lady should know to fit her for the responsible duties of life, and the graduate is sent from its halls with a mind well stored with knowledge and a Christian character developed with the instructions received. The institution has an able corps of instructors, is in a flourishing condition and has a brilliant future. May Westminster Seminary live and grow with each passing year and may its instructors have Heaven's richest blessings showered upon them for the good work they are doing for the girls of our state.

Gen. Crook as a Huntsman.

"Gen. Crook was very fond of hunting," said Lieut. Kennon, "and was one of the best shots I ever saw. When he was a young officer he always did the hunting for his mess. In those days sometimes the mess bills exceeded the officers' salaries, and I have heard Gen. Crook tell how they made him caterer, and by his intimate knowledge of the Indians' economical methods of cooking, and his good luck at hunting, the mess was soon able to declare dividends. I have been with him on many hunting trips, and I never saw a better or a steadier shot. Sage hens are not the easiest game to bag, and yet I have seen him repeatedly drop a bird out of a flock with each barrel; but not only that, he would kill a chicken every time. His eye was so quick that while aiming he could select the chicks instantaneously. With all his experience and trials Gen. Crook was as simple as a child. He was straightforward and truthful, and had no patience with concealment or trickery. He never broke his word to white man or red man."—*Washington Star.*

Vanity that Kills.

Overweening egotism is as potent a cause of suicide as any other. More than one couple have died in each other's arms with the desire and belief that their names will go down to posterity with the same fame that lingers over the tomb of Abelard and Heloise, and young men have exhausted their brains to concoct letters that should create a sensation over their ashes. I recall one youth who left a long letter to say that he blew his brains out because he could not wait for natural death to reveal to him the mysteries of the next world; another who argued on page after page to demonstrate his right to make away with himself, and more than one couple who arranged their simultaneous exit with as much care as if they were on the stage with the world for an audience. A wretched vanity, but does not the wisest of men say that all is vanity with us poor mortals?

The Kabo corset that brings a woman to perfect form if she only laces it tight enough—for it never stretches or breaks its "bones" or rolls up—has soft eyelets that do not cut the laces.

Soft eyelets are loops of corset lace instead of metal eyelets.

If the Kabo corset fails in a year in any part but the steels—no way has yet been invented to make unbreakable steels—you get your money back from the store where you bought it.

You wear the Kabo corset two or three weeks; and, if not satisfactory, take it back and get your money again.

GREED OF GAIN

and thirst for pleasure. The ruling passion of the human family. In grasping after riches the brain is taxed, the nervous system drained. In the pursuit of pleasure the body is tortured by fashion's despotic sway; the hours designed for repose are devoted to exhausting revelry; the stomach is ruthlessly imposed upon; pure water, the natural drink for all created beings, is ignored, and liquid fire is substituted until, ere we are aware of it, disease has fixed its iron grasp upon us. Then we look for the "remedy." To the victim of these follies, we commend Dr. Tutt's Liver pills. They stimulate the liver, strengthen the nerves, restore the appetite and build up the debilitated body.

The south depots have become a popular resort since warm weather encourages promenading and lounging. The arrival and departure of the evening trains on both the Pittsburg and Wabash roads is witnessed by a large crowd regularly. This is especially noticeable on Sunday evenings.

The ten-wheel express engines which the Baldwin locomotive works built for the Baltimore and Ohio road were guaranteed to haul seven passenger coaches up a 117-foot grade seventeen miles long at twenty-five miles an hour. The one which has just been put in service has more than met the guarantee, last week hauling with ease eight loaded coaches up this grade at the required speed. With these engines the weight on the drivers is 102,000 pounds. The total weight of the engine, without tank, is 133,000 pounds.

What Does it Mean?

"100 Doses One Dollar" means simply that Hood's Sarsaparilla is the most economical medicine to buy, because it gives more for the money than any other preparation. Each bottle contains 100 doses and will average to last a month, while other preparations taken according to directions, are gone in a week. Therefore, be sure to get Hood's Sarsaparilla, the best blood purifier.

When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children she gave them Castoria.

A MARVELOUS PREMIUM.

THE MUTUAL LIFE INSURANCE COMPANY,

OF NEW YORK, SECURES IT.

Nearly $600,000 Paid by Members of one Family for Insurance in the Mutual.—The Most Stupendous Transaction Known in the History of Insurance.—"It has Never Been Done Before; It Never Will Be Done Again."

E. C. POTTER & CO.

No. 799. New York, Dec. 24, 1889.

BANK OF NEW YORK.
National Bankers Association.

Pay to the order of L. C. HOPKINS, Genl Executive Agent

Five hundred and Seventy Eight Thousand, Three Hundred and Forty Five ——— DOLLARS.

$578,345 00/100 — 29 DEC 28 1889.

CERTIFIED, Payable through New York Clearing House, N. Y. B. A.

E. C. POTTER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for Insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life's with the annuity feature added. Each policy was for the sum of $100,000 and the insured chose to make but one payment, thus commuting the cost. The insurance covered by the above mentioned premium payment of $578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and Four members of his family. Mr. Theo. Havemeyer, is the Austrian Counsel General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son in-law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this Insurance.

First, that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected Life Insurance as offering more advantages and greater security than any other form of investment. Second That they had such faith in the management and stability of the Mutual Life Insurance company of New York, that they willingly entrusted to its care nearly $600,000 in cash without any security whatever, and only the PROMISE of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of $578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in merchantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that is't an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and sixty millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

FRUIT HOUSE PRICES FOR 1890.

This year opens favorable for the people, so far as the Sugar Market is concerned. Last season the great sugar trust had their grip on the market and made it ruinous to the purchaser—so much so that Sugars were advanced in 60 days at least 50 per cent. This is now over—the Sugar Trust is broken and Sugars have declined to a point lower than they ever were—the last reduction is 1 cent per lb.

We now offer Best Extra C., 6c. Best Standard A., 6¼c.
Powdered and Crushed, 7c. Granulated and Cut Loaf, 7c.

COFFEE, COFFEE—Rio, Java, Mocha and Roasted Coffee.

There has been little change in the Coffee Market the last three months. It is too high yet. The clique has control of the market and keeps prices up. We still sell our best Rio at 22c. lb. This we are enabled to do in consequence of our large purchases and selling direct to our customers—in this way saving the profit of the jobber and wholesale merchant.

TEAS, TEAS—Young Hyson, Oolong and Japan.

The high price of Coffee has induced a great many to try Tea—and when it is considered that a pound of Tea can be had for the price of a pound of Coffee and that it will go twice as far, it is not to be wondered at that there is a great increase in our Tea Trade. The truth is we sell double the quantity we used to a few years ago. Our motto is selling large quantities at a small profit, for we purchase direct of the Importers and then in selling direct to our customers we save three profits—the speculator, jobber and the wholesale dealer. We sell a good, rich drawing Tea at 20c. lb., and one grade as low as 10c. lb.

Your Thoughts Are Ours.

Thin Clothes—Could we talk about anything else! Would you listen to anything else? Isn't the heat—and how to overcome it—the most engaging subject! It's the all absorbing topic in our house to-day—was yesterday. We don't believe in two days we ever served so many people.

It don't take long to fit you out, tho. we've such a COMPLETE VARIETY, and all the sizes of each, ther'is a great deal in that, you don't have to stand around and wait.

You may want a whole SUIT. If you do ther'is the FEATHER WEIGHTS, BLUE and BLACK SERGES, FANCY DOMESTIC and IMPORTED SERGES, SEERSUCKERS and FLANNELS, are regular "Ice Houses" of comfort.

May be its only a COAT and VEST for these extreme hot days wer'e sampling now? Then its SILK, ALPACA, DRAP D'ETE, SICILIAN, MOHAIR, FLANNEL, or the OFFICE COAT, or HOUSE COAT, or STREET COAT. A myriad of styles.

"Anything to keep cool," says you. That's all right enough, but you might as well get what'll be SERVICEABLE while you're about it. Mosquito netting is thin, but 'twont do for clothing. Remember this is'nt the only hot day we'll have. There "scorchers" ahead.

MUNCIE will celebrate the Fourth.

E. D. FULLER proposes to establish a new democratic paper at Elkhart.

THE mayor of Milwaukee wants the streets of that city sprinkled on Sunday.

THE United States senate yesterday passed the free-coinage silver bill by a nearly two-third vote.

THE candidates for the various empty honors on the republican county ticket this year will not be numerous.

CONGRESSMEN are beginning to feel the effects of the hot weather and some fellow will be moving to adjourn before long.

THE mosquito and the housefly are vieing with each other for the early honors of the season. The mosquito has drawn the "first blood," but the housefly carries off the "sugar."

THE Fourth of July spirit is rising in some of our juveniles, and unable to control their enthusiasm, has broken out more than two weeks in advance. Dealers in fireworks report good sales already made.

THE Fort Wayne base ball club occupies the fifth place in the league. Well, that is honor enough. Our boys should see to it that they do not get way down to the tail end. Their friends could never stand that.

A PHOTOGRAPHER at Terre Haute, on the charge of "assault and battery," was fined $15 and costs for kissing a pretty girl. If that is the price, the Hoosier girls will suffer greatly for these love evidences.

BLAINE still has an eye on the presidency. He writes from Augusta, Me., to give his views on the sugar-duty question and signs himself "in great haste, yours truly, James G. Blaine." Why "in great haste," Jimmy?

THE state board of equalization met Monday afternoon and organized, with Gov. Hovey, president; Lieut. Gov. Chase, president pro tem., and John W. Coons, secretary. This labor completed, the board adjourned until next Monday.

THE lady operators of the telephone company in New York city threaten to strike because of the issuance of an order that they must work three Sundays out of four. What use will their new hat be to them if they can only display it one Sunday in a month? Sensible girls.

IF the census enumeration fails to show up Fort Wayne as a city of 50,000 inhabitants there is something wrong. That's all there is about it and we will shoulder the blame on the "incompetent" enumerator. Better let him stand it than to acknowledge that we are beaten in population by some of our rivals.

IN the account of the school commencements held in this city so far this year, none of the newspaper reporters have indulged in the old-time "chestnutty" expression "the sweet school girl graduate." In former years a "graduating" article was not supposed to be complete without the use of that phrase.

THE June drawing of the Louisiana lottery took place yesterday and a couple of thousand persons in this city find they are "just a dollar out." They have been investing in this swindling concern every month for years past in the hope that wealth would come to them unearned. It hasn't come yet, and the chances are, ten thousand to one, that it will never come.

CONGRESSMAN MCKINLEY has announced that he will be a candidate for re-nomination to congress, although, as redistricted, there is a majority of 2,500 against him. Better not be a candidate, Bro. McKinley. Your tariff bill will bury you with 5,000 majority against you and presidential lightning will never resurrect you from a political grave.

THE present school year of the great Concordia college closes this week. The graduating class numbers forty-four members, and all but one of the members will pursue their studies at the St. Louis college. The diplomas will be conferred on the graduates Friday morning and the exercises are to conclude in the evening. There have been 215 students at the college this year.

THE Trades and Labor council will appropriately celebrate the Fourth of July in this city and they are to be commended for their efforts in this direction. They met last night and about completed the arrangements. Mr. Robert Schilling has been secured and will deliver the address on that day. Mr. Schilling is well known here, having spoken in this city twice during the past few years. He is a brilliant orator.

CHICAGO has torn the buttons off of her clothes during the last few years in her fight to secure the world's fair, and now that she has got it she don't know where to hold it. She has several favored sites, but the directors are puzzled which to chose. The Chicago newspapers are taking a hand in the discussion of the interests of each and if the directors are wise they will listen to the press. Newspapers never make mistakes.

THE United States consumed in the year 1880 over 540,000,000 gallons of intoxicating liquors. That is something over eight gallons to each inhabitant. Lots of fellows got some other fellow's share, however. It is impossible sometimes to estimate the capacity of the human stomach. Liquor drinkers often make a mistake and find themselves in the station house—or a drunkard's grave. Better be willing, dear reader, to let some other fellow drink your share.

IT has been computed that between 36,000,000 and 37,000,000 babies are born in the world each year. The rate of production is, therefore, about 70 per minute, or rather more than one for every beat of the clock. With the one-a-minute calculation every newspaper reader is familiar, but it is not every one who stops to calculate what this means when it comes to a year's supply. It will, therefore, probably startle a good many persons to find on the authority of a well-known hospital writer that, could the infants of a year be ranged in a line in cradles, the cradles would be overflowing, and at the same time extend around the globe.

HOOSIER HITS.

The Logansport fire department is washing off the shade trees to destroy the lice.

Martin Wilson, of Sullivan, aged eighty, dropped dead while attending a funeral.

Montgomery county is receiving more than its proportion of dangerous wind storms.

Paxton Hutton, near Crawfordsville, died very suddenly of a second attack of la grippe.

A musical club has been organized at Edinburg with fifty members, headed by A. J. Lougherty.

Micajah Moses, colored, aged seventy-seven, of Knightstown, has been stricken with paralysis.

MONROEVILLE.

Gossipy Budget of News--How the Fourth Will Be Celebrated.

MONROEVILLE, June 16, '90.

Monroeville was well represented by active working democrats at Fort Wayne last Saturday.

The fruit crop will be a total failure this year.

A strawberry and ice cream festival was held last Saturday evening at the residence of Mr. B. A. Scott near Massilon.

Rev. B. Hartman is making preparation to hold a grand festival in Vieger's agricultural room August 26, 27 and 28, for the benefit of his church.

Miss Laura Sear, at one time saleslady at Fort Wayne, died at her parents' home, of consumption, last Wednesday, aged nineteen years and seven months. The funeral took place Friday morning from the Lutheran church, and her remains were laid to rest in the new I. O. O. F. cemetery. Rev Bowen officiated.

A number of "our boys" attended a "social" near Maples last Saturday night and Louis and Mert were tendered a warm reception. The compliment may be returned some day. No body was seriously hurt.

The democratic ticket as nominated last Saturday is a strong one and is sure to bring victory in November. The delegates deserve credit for what they did. Every democrat here will heartily support the nominees.

Frank Edwards, our artist painter and wood worker, moved his furniture store to a room neatly arranged, near his residence in the southern part of town, where he has in stock an assortment of everything in the line of his trade.

Rev. I. J. Bicknell is now pleasantly located on his farm west of town and is devoting most of his time to the pursuit of agriculture. Fine yellow legged chickens and large cabbages will be in display this fall. His spare time, however, is devoted to the study of physiology and pedagoguey, as it is Mr. Bicknell's desire to fall in line with the pedagogues of the present time.

Almost all the schools in Monroe township closed this week, and it is an honor to those interested to know that old Monroe is classed by the school authorities as the banner educational township in the county. The result of the past term were eleven graduates, and Trustee Baker and Professor Munger with the teachers appreciate the comments. Trustee Baker is taking advantage of the law by hiring new teachers for the next term.

The I. O. O. F. decoration exercises last Friday was a grand event. The graves of the deceased members of the fraternity were decorated with splendid wreaths, and the exercises at the M. E. church are spoken of as the finest ever held here on former occasions of this nature.

The citizens of this place are making extensive preparations to celebrate the Fourth in grand style. The undertaking is in the hands of our best men, and we will not hesitate in saying that the program as arranged will be fulfilled should the weather permit. All the societies and orders of this place will be in line and march to Robinson's grove, where the exercises of the day will take place. Arrangements have been made to have a game of ball, a three-legged race, sack race, picnic and a "grand platform dance." The several Sunday schools of the neighborhood have been invited to attend the picnic, and a prize is offered to the largest delegation entering the grove. A grand fire-works display will take place in the evening. Seventy-five dollars have already been raised by the finance committee to defray the expenses of the day.

SCALY SKIN DISEASES.

Psoriasis 5 years, covering face, head and entire body with white scabs. Skin red, itchy and bleeding. Hair all gone. Spent hundreds of dollars. Pronounced incurable. Cured by Cuticura Remedies.

Cured by Cuticura.

My disease (psoriasis) first broke out on my left cheek, spreading across my nose, and almost covering my face. It ran into my eyes, and the physician was afraid I would lose my eye sight altogether. It spread all over my head, and my hair all fell out, until I was entirely bald-headed; it then broke out on my arms and shoulders, until my arms were just one sore. It covered my entire body, my face, head and shoulders being the worst. The white scabs fell constantly from my head, shoulders and arms; the skin would thicken and be red and very itchy, and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced incurable. I heard of the Cuticura Remedies, and after using two bottles Cuticura Resolvent, I could see a change; and after I had taken four bottles, I was almost cured; and when I had used six bottles of Cuticura Resolvent and one box of Cuticura, and one cake of Cuticura Soap, I was cured of the dreadful disease from which I had suffered for five years. I thought the disease would leave a very deep scar, but the Cuticura Remedies cured it without any scars. I cannot express with a pen what I suffered before using the Cuticura Remedies. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my eyesight. I know of others who have received great benefit from their use. MRS. ROSA KELLY,

WHAT IS SAPOLIO?

It is a solid handsome cake of scouring soap which has no equal for all cleaning purposes except in the laundry. To use it is to value it.

What will SAPOLIO do? Why it will clean paint, make oil-cloths bright, and give the floors, tables and shelves a new appearance. It will take the grease off the dishes and off the pots and pans. You can scour the knives and forks with it, and make the tin things shine brightly. The wash-basin, the bath-tub, even the greasy kitchen sink will be as clean as a new pin if you use SAPOLIO. One cake will prove all we say. Be a clever housekeeper and try it.

A RICH BRIDE.

Miss Lena Caldwell Gives Her Wealth for a Title—Mary Anderson, the Actress, Weds.

WASHINGTON, June 17.—The wedding of Lena Caldwell, one of the rich and somewhat eccentric sisters, whose large fortunes have been coveted by the titled gentry of Europe, and the Baron Von Zedwitz, German minister to Mexico, took place this morning in the chapel connected with the new Catholic university which has been lately built by the munificient gifts of the Caldwell sisters.

The event, though a notable one, has not stirred society to its depths, for the young ladies have not been a part of the social structure here. They have spent most of their adult years in Europe, and have few friends among society people in Washington. The Baron came up from Mexico on Friday and took apartments at Wolickers, and the Misses Caldwell with their aunt and cousin, Mrs. E. C. Donnelley and Miss Donnelley, came over from New York Monday and took quarters at the Arlington. The wedding arrangements have all been conducted by Miss Gwendoline Caldwell and Mrs. Donnelley, and are very simple in character. Less than fifty invitations were issued verbally to the chapel and to the wedding breakfast at noon at the Arlington.

The main chapel of the university, where the wedding took place, was built out of a donation of $50,000 made by the bride of to-day for that purpose. The interior of the chapel was decorated with the conventional palms and other greens, bride roses and twining plants. The altar, with its bright candelobra, shone forth against a background of green and gave an air of grandeur to the simplicity of the other parts of the chapel.

There was little formality about the scene other than that given by the impressiveness of the ceremony and the quiet grandeur of the altar decorations. With one or two exceptions the members of the diplomatic corps present wore conventional morning dress. Preceded by the ushers, the bride, leaning on the arm of Mr. Eugene Kelly, of New York, one of her guardians, walked to the altar, where she was met by the groom and his best man, Baron Sheck Von Steinberg, of the German legation at Washington. Baron Zedwitz wore the court uniform of a German field officer, consisting of a blue frock coat, sprinkled with white cord, white doeskin trousers and patent leather boots. Both wore swords and carried plumed helmets in their hands.

Bishop Spalding, of Peoria, the spiritual guardian of the Caldwell sisters, performed the ceremony, assisted by Bishop Kean, the rector of the University. Mr. Fry, of New York, the other guardian of the sisters, gave the bride away. At the conclusion of the marriage services a low mass was celebrated.

Before the newly made baroness and her husband left the altar, Bishop Spalding, in a voice that trembled with emotion, gave them his blessing and a few words of advice and announced that he had received a cablegram from the pope, sending congratulations and a blessing.

MARY ANDERSON.

LONDON, June 17.—Miss Mary Anderson and Mr. Antonio Navarro were married to-day at St. Mary's Roman Catholic church at Hampstead. Miss Anderson drove to the church in a carriage, the windows and blinds of which were completely closed. The ceremony was of the plainest possible description. There was no choir present, the music being rendered by an organ.

VICTORIA WEDS.

Victoria Sackville West, daughter of Lord Sackville West, late minister from Great Britain to the United States, was to-day married to her cousin, Lionel, who is heir to the family estate of Seven Oaks.

THE FARR HILL HORROR.

Rescuing Parties Working to Reach the Entombed Miners.

DUNBAR, Pa., June 17.—The efforts of the rescuing parties to reach the thirty-two entombed miners at the Farm Hill mine, where the explosion occurred yesterday, were unavailing. It was determined this morning to cut off all fresh air and let the mine burn itself out and then recover the bodies of the victims. The coroner is on the ground. He viewed the remains of the two dead bodies recovered yesterday, but refuses to hold an inquest until the others are recovered.

Arkansas Democrats.

LITTLE ROCK, Ark., June 17.—The town is full of delegates to attend the democratic state convention which convenes at noon to-day. James P. Eagle will probably be nominated for governor, and B. B. Chism for secretary of state. It is understood that the convention will indorse Cleveland as the democratic presidential nominee in 1892.

Generous Donation.

PITTSBURG, Pa., June 17.—It is expected that Andrew Carnegie will induce Mrs. Mary Shenley to give to the city a twenty-acre site for the $1,000,000 free library which Mr. Carnegie proposes to build for the city.

VOLCANIC WORKINGS.

One of the Peaks of a Mountain Disappearing.

REDDING, Col., June 17.—One of the peaks of Mount Shasta has disappeared. The top appears to have been cut short off and to have fallen into the crater below, the depths of which have never been penetrated by the eye of man. It is thought that the absence of this old land mark may indicate further demonstrations of a volcanic nature. Fire has long been known to exist in the crater, and the lava formations of the valley and on ridges below it gave rise to the question, may not the convulsion of ages past be repeated? An attempt will be made as soon as possible to explore the mountain.

SEND THEM TO PRISON.

A Brutal Prize Fight Fought on Long Island.

NEW YORK, June 17.—Paddy McBride, of Philadelphia, and Jimmy Lynch, of this city, met in a skin tight glove fight to a finish this morning at Oak Point, on Long Island Sound. One of the most desperate contests seen in the ring in this vicinity for many a year was witnessed by over 200 enthusiastic sports. The men battled for a $1,000 stake and an added purse of $500. McBride from the outset was handicapped with a sprained arm, but fought, rather than forfeit. In the eighteenth round he was knocked out.

FAINTED IN HIS PULPIT.

When He Heard That His Son Had Been Murdered.

SAN ANTONIO, Texas, June 17.—The grand jury yesterday indicted for murder, Jos. Wilkins and Jas. Stevens, colored, the policemen who on Sunday shot and instantly killed a young cow boy named Collins. It is learned that Collins' father, who is a Methodist minister at Pearsall, was holding services when he heard of his son's death and that he fainted in the pulpit. Public opinion strongly condemns the shooting.

STENOGRAPHER DEAD.

Death of John G. McElhone, Chief Stenographer of the National House.

WASHINGTON, June 17.—Private advices received here report the death of John G. McElhone at Atlanta City at noon to-day of paralysis. Mr. McElhone has been the chief stenographer of the house of representatives for many years past. Deceased was about fifty-nine years of age.

Death of a Pioneer.

SEYMOUR, Ind., June 17.—Hiram Marling, a respected and pioneer citizen of this county, died from the effects of the grip. Mr. Marling was born near Utica, N. Y., May 24, 1807, and he came to this county more than seventy-one years ago and he has since resided here.

Her action is taken in order that she may be enabled to marry whom so ever she pleases, free from all considerations of state policy.

SUICIDES IN HIS CELL.

LONDON, June 17.—The German dentist, Arenmann, who, on November 19, shot and dangerously wounded Judge Bristowe, of the Nottingham county court, and who has since been in prison, to-day committed suicide in his cell. An adverse decision against Arenmann by Judge Bristowe was the cause of the shooting.

DOUBLES THE DUTY.

SHANGAI, June 17.—A proposition has been made by the viceroy of the province of Quang Tung to double the duty on cotton yarn and piece goods and to increase the opium duty by 20 per cent. The proposals provide that syndicates shall be charged with the duty of collecting the revenue accruing. British traders are strenuously opposing the new plan.

AGAINST SLAVERY.

BRUSSELS, June 17.—In the anti-slavery conference the American and Dutch delegates are persistent in their opposition to the import duties proposed for the Congo state. The delegates from the United States announced that the consent of that country will depend upon arrangements which go beyond this conference.

WASHINGTON.

Business Done in the National Legislature—The Silver Bill.

WASHINGTON, June 17.—The republican members of the senate finance committee have completed the consideration of the tariff bill. If nothing unexpected happens, it will be reported to the senate to-morrow.

The senate, by a vote of 50 to 14, rejected the provision that the treasury notes issued for silver shall be a legal-tender in payment of all debts, public and private.

The senate, by a vote of 57 to 7, struck out the bullion redemption clause in the house silver bill. By a vote of 16 to 46 the senate refused to strike out section six of the bill, which provides for a resumption of coinage when silver reaches a certain valuation.

The senate, by a vote of forty-three to twenty-four, adopted a free coinage amendment offered by Senator Plumb to the silver bill declaring the standard silver dollar and the standard gold dollar equally a legal tender for all debts public and private. The announcement of the vote was greeted with applause from the galleries.

The house agreed to the conference report on the bill for a public building at Alexandria, La., with the limit of cost fixed at $80,000.

SHIPPERS' PANIC.

Caused by a Strike on the Nickel Plate.

CLEVELAND, Ohio, June 17.—The strike last evening was brought about by the Cleveland and Pittsburg and Nickle Plate yardmen who succeeded in getting the other roads out with them. The Big Four and Erie managers tried to head off a strike by advancing wages to the Lake Shore rate, but did not succeed. Only one-half of the strikers belong to the union, and those who do are in the movement under a sort of protest. This fact causes the managers to expect a break in the ranks.

The leaders of the strike declare that both divisions of the Lake Shore between this point and Buffalo and the Cleveland divisions on all the other roads will be tied up if necessary to aid the strike. Shippers are in a panic. Some of the yards are already full of cars and trains are being side-tracked along the roads to prevent a blockade.

PITCHED BATTLE

Fought in Alabama Between Negroes and White Men.

BIRMINGHAM, ALA., June 17.—A pitched battle between negroes and white men was fought yesterday morning at Brookside, a mining town. Tom Redmond, the leader of the negroes was killed, and Jim Dowell badly wounded. Tom Ayres, white, received a slight flesh wound and was the only white man hurt. Several negroes were captured by the whites who threatened to lynch them last night. Both sides are well armed and more bloodshed is expected.

Was a Miscreant.

LITTLE ROCK, Ark., June 17.—Sunday night some unknown person entered the servant's room at the residence of Rev. W. H. Vernon, and with a knife slashed the sleeping servant, Betty Jones. An ugly gash was inflicted, extending across her hips.

London Race.

LONDON, June 17.—At Ascott to-day the race for the biennial stakes was won by Simonian. The race for the Prince of Wales stakes was won by Alloway, with Blue Green second and Hebridge third.

THE STRIKE IS ON!

Ten Thousand Men and Women Cloak Makers go Out on a Strike at New York.

NEW YORK, June 17.—The big strike of cloak makers, tailors, finishers, cutters, pressers and operators is on. Nearly 10,000 men and women went out on the strike this morning and the cloak manufacturers trade is practically at a stand still.

It was predicted yesterday that unless a satisfactory settlement could be reached between the locked out cloak cutters and the manufacturers the workmen in the other departments would quit work. Last night they notified their employers that they would not return to work until the difficulty with the cutters had been adjusted.

The strikers have concluded to have nothing to do with the state board of arbitration and mediation. They allege they are strong enough to fight their own battles without any outside interference. There will be a meeting of the cloak manufacturers at 5 o'clock this afternoon.

AGAINST BRITIAN.

The Feeling Among the People at Bay St. George.

NEW YORK, June 17.—A special to the Herald from Bay St. George says: "I have just reached this out of the-way place after a 500 mile voyage on a steamer from the coast of New Foundland. I find the feeling here much stronger against the home country than against France. This is because of the apathy in not trying to modify the fishery treaty or at least to compel France to adhere strictly to it.

"All is quiet here now, and for the present season, so far as St. George is concerned, the crisis is over. The French fishing vessels have all gone and the natives are left to fish in peace. There are no French war ships in the harbor; the Pelican, a British war ship, is the only one here. There is much indignation over the modus vivendi, and ominous troubles are reported elsewhere.

News has just reached here of an outbreak at Lascia, a small fishing village on the northern coast, within the French treaty limits. The inhabitants attacked a French fishing establishment consisting of fishing boats and other property left at that place by French fishing schooners last year. They set fire to the place and destroyed all the property. Local magistrates were powerless to interfere. The occurrence shows the intense feeling of the natives against the French.

Lascie is several hundred miles from here, beyond the telegraph. The outbreak occurred May 15th and the news has just been brought in by a fishing boat. Quite similar affairs have occurred around the north and east coast. It is not likely that France will make any claim for damages. It is probable that the British war ship, Emerald, heard of the affair at Lascie and proceeded there. She left here two weeks ago for Port Saunders, on the north coast, to meet the French man-of-war Laperous.

THE LAST SALOON

At Santa Fe, Ind., Closed by the Authorities.

PERU, Ind., June 17.—The last saloon in the village of Santa Fe, this county, was closed Saturday night for good, and amid much rejoicing by the temperance people of this city and that town. A large delegation, accompanied by the band, were in attendance from here.

A monstrous meeting was held in church and addresses up to a late hour were made by leading workers and ministers of the vicinity. John York, the saloon keeper, gave bond and his pledge not to engage in the business for two years within one mile of town, nor to rent his property for that purpose. In return the temperance people abandon the forty odd indictments which they have against him.

MILLERS MEET.

They Hold a National Meeting at Minneapolis.

MINNEAPOLIS, Minn., June 17.—The Millers National association of the United States convened in fourteenth annual session in Harmonia Hall, this city, to day; 250 delegates being present from all sections of the country. During the meeting special trains from Boston, St. Louis and Chicago arrived with the delegates.

The morning session was devoted to routine reports from the executive committee and the officers. The unanimous opinion of the delegation is that some steps should be taken to change the form of the present bill of lading in order to hold railway and steamboat companies responsible for delays in shipment and some change will undoubtedly be made.

Cholera Appears.

MADRID, June 17.—The government has ordered troops to proceed to the province of Valencia and establish there a military cordon about the districts in which the cholera has made its appearance. Seven more cases of the disease are reported as having developed in Puebla de Bugat.

A Michigan drayman fell asleep while at work the other day and never awoke.

Dixon plays his first game with the Fort Wayne club to-day.

Fort Wayne is in fifth place—for a short time only it is hoped.

Keogan and Dixon will be the Fort Wayne battery to day. Their first appearance in this city.

Fort Wayne has played thirty-eight games and has seventy four games ahead to work for the pennant.

State League—Anderson won of Marion, 9 to 6; Kokomo defeated Muncie, 10 to 9; Bluffton won of Elkhart, 8 to 5.

In the morning game to-day between New York and Boston, National league, the game was won by the former by a score of 4 to 2.

Dixon, the catcher, who came here upon request of Manager Mayer, has not be n signed with the Fort Wayne's, as had been expected. He left this afternoon for Utica, N. Y., to join the Johnstown, N. Y., club.

Keogan, the new pitcher for the Fort Wayne club, was expected to arrive in the city this afternoon. He was a star pitcher with the Chicago Maroons, being an alternate with Dwyer, the present crack Brotherhood pitcher.

Fort Wayne goes to Kokomo to-morrow for two games and also plays two games at Marion and Elkhart, returning here to play Muncie June 26, and remaining here until July 5. On July 4 the home club will play Bluffton at League park.

The following is the batting average of the Fort Wayne players in the twenty-two games on the home grounds: Scott, .347; Ferris, .337; Quirk, .318; Gallagher, .315; Allen, .312; Downing, .300; Ellery, .285; Bruton, .259. Ferris and Gallagher played in only nineteen games. Quirk has the most hits, 35, followed by Allen and Scott, with 34 and 33 respectively. The team's average is .317. The club has made 198 runs, 288 base hits, 30 sacrifice hits and has stolen 82 bases. Bruton's average is much higher, including games away from home.

DOSWELL-RUSHER.

A Quiet Wedding to Take Place To-morrow.

To-morrow, at the home of the bride's parents, Pierceton, Ind., will occur the marriage of Miss Laura M. Rusher, to Mr. A. E. Doswell, both of this city. This is a matrimonial surprise. Miss Rusher has been for some time past bookkeeper in the office of the D. N. Foster Furniture company. Her charming womanly graces, made perfect by her intelligence and sunny disposition, places her a favorite with her acquaintances. The groom is a son of John H. Doswell, superintendent of Lindenwood cemetery, and is a florist of much promise. He at present has charge of the conservatory on the Bass farm. Mr. and Mrs. Doswell will return to this city and will occupy apartments on West Main street. A host of friends will congratulate them.

Walker's Saloon.

ATLANTA, KAS., June 17.—A saloon has been seen drifting about in this vicinity since Saturday. Some memorandums which fell from it and were picked up state that it is Professor Walker's saloon from Dayton, Ohio. The occupants had lost their salast and were adrift, suffering from cold.

Equality.

In France, where there is more talk of equality than there is realization of it, a gentleman fell into a fit of wrath one day with his valet, because the man had attempted to put an extra "shine" on his patent leather boots.

"You villain!" said the master; "you imbecile! you calf! Didn't you know any better than to do that?"

The man made no reply, but carried his woe to the cook and the chambermaid.

"The idea," he exclaimed, "of using such terms as that to a *valet de chambre* in this country of equality in which we live! Why, a gentleman would hardly talk to his coachman in that way!"

A LIGHT VERDICT

Returned in the Case of Haberkorn vs. the White Water—Davidson Murder Trial.

Yesterday at 4:10 o'clock the jury in the case of T. H. Haberkorn vs. the White Water railroad, for damages, retired to deliberate. They remained out until 9 15 o'clock this morning, about seventeen hours, and then, through Foreman McCrory, reported a verdict of $362.50 for the plaintiff. It was a big disappointment to the plaintiff and to the plaintiff's counsel, L. M. Ninde.

The demand was for back salary claimed and for the use of divers patent air brake appliances, the amount petitioned for amounting to about $7,000. The jury was considerably divided for the first few ballots, and not until after 9 o'clock, did they come to an agreement, when the verdict was returned, the amount representing the defendant company's responsibility for use of said patents. The jury consisted of eight farmers and four residents of this city.

A motion will be made for a new trial or the case will be appealed to the supreme court. Bell and Morris ably defended the company.

THE DAVIDSON MURDER TRIAL.

This is the day set for the beginning of the trial of Thomas Davidson, charged with the murder of his uncle, Thomas Davidson, the case being transferred on a change of venue from this county to the Whitley county court, Columbia City, Judge Adair presiding. Prosecutor J. M. Robinson for the prosecution, Judge C. M. Dawson and Judge S. M. Hench for the defense, and a large number of witnesses, both state and defense, left on the morning train to attend the trial, which will occupy a week or ten days time. The circumstances of this tragedy are still fresh to the memory of nearly every one in the community. It will be recalled that the body of Thomas Davidson, uncle of the accused, was found lying on the barn floor on his premises near Arcola, the position of the body indicating that the man had been kicked to death by a horse. The nature of the wounds led to an investigation. Young Davidson, an unmarried nephew, was suspected and subsequently placed under arrest. The report that young Davidson will try to prove an alibi is doubtful.

COURT CULLINGS.

In Justice Tancey's court a verdict was given the defendant in the case of Dr. Carl Praegler vs. John J. Searson for $15 on account; Louis Wolf vs. John E. Ohmbause, judgment for plaintiff; Butts vs. Hilgemann, ejectment ordered in favor of plaintiff.

Before Justice Ryan, to-day, George W. Barner was bound over in the sum of $200 for surety of the peace, on a charge preferred by his wife. Barner had just finished a jail sentence for beating his wife, and upon gaining his liberty made threats to the woman. Drink causes this viciousness as Barner is called a peaceable man when sober.

Frank Leikauf enters suit in Justice Ryan's court to recover two calves from Jules Hugenard, which were purchased by the latter from a farmer to whom Leikauf had paid some money for the animals.

Justice France to-day acquitted William McCormick of a charge of provoke.

Justice France fined Charles and Alice Battley for provoking Helen Barnard.

Justice France had William Hutchins, Charles Armstrong and George Bauley cajoused on complaint of John Milligan and Daniel Hill for board. The fellows settled.

In the superior court, in the case of Fred Dalman vs. Paul Koehler and Amelia Mansdorfer, a judgment and decree of foreclosure was rendered by Judge Chapin in favor of the plaintiff for $1,769.67. On cross complaint a judgment of $277 was rendered against Amelia Mansdorfer in favor of Paul Koehler.

Phillip Merz enters suit in the superior court for foreclosure against Lottie D and W E Lewis. C. Holder, f Morrocelle, attorney for plaintiff.

THE democratic county ticket is receiving praises on every hand.

THE democratic county central committee will meet in this city on June 28.

IN the awful mine disaster, near Dunbar, Penn., yesterday, forty persons lost their lives.

THE watermelon is here. The physicians will now have an increased number of professional visits to make.

THE Christian Endeavor convention at St. Louis, a most enthusiastic body, attended by 5,000 delegates, adjourned last night.

THE excursion season has commenced in earnest, and Rome City and Warsaw will now catch a good many of our Fort Wayne people for a day's pleasure and recreation.

THE association of Indiana county superintendents is in session at Indianapolis to-day. Supt. Geo. F. Felts, of this city, will read a paper on the "Compensation of County Superintendents Under the New School Book Law."

THE estimated expenditure for pensions next year is $167,429,731. This sum is nearly three times greater than the total cost of carrying on the government the year before the war. It is equal to the combined annual cost of maintaining the vast standing armies of Great Britian and Germany.

EVERY citizen should be interested in aiding enumerators to get a correct census that Fort Wayne may have a proper count and take her rightful place among the cities of the state. If enumerators should fail to call on a family the head thereof should see at once that all the information is furnished to the enumerators.

THE Northern Indiana Orphans' Home of Mishawaka now receives orphans from twelve counties. It has grown so popular that it is to be reorganized, and its field will probably be extended to include the entire state. The organization will probably be called the "Children's Aid Society of Indiana." The demand upon the home for children to adopt is greater than it can supply.

WESTMINSTER seminary, which held its annual commencement exercises last evening, is one of the grand educational institutions of the city and the state. It is doing a noble work for our girls and educates them for the practical duties of life, combining moral with mental instruction. It is, we are glad to note, flourishing and growing in attendance with each passing year. Such institutions deserve the "God speed" and the support of every citizen.

THE Democratic county ticket is regarded as a strong one by everybody, even republicans adding words of praise to its excellence. Every nomination made is a good one and there is not a candidate named who can not, on the grounds of personal worth, receive the support of every democrat. There is not a weak spot in it. The democracy did their work and did it well. Concerning the ticket, the Daily News says: "The ticket put in nomination by Allen county democrats on Saturday, is one of unusual strength. It contains drawing features at every point, and what is better still, and quite unusual, there is not a bummer among the list of candidates. With a ticket like this, the democracy of Allen county have little to fear from internal dissensions on the opposition of a party comprising a weak minority of the voters."

WHITE HOUSE EXPENSES.

The lot of the president of the United States is not entirely an unhappy one, so far as his domestic arrangements are concerned. He has no occasion to bother himself much about market bills, or rent, or servants, or gas or plumbers' bills. With ordinary prudence he can manage to pull through on the allowances made by congress, without involving himself in debt, as Jefferson and some of the earlier presidents are said to have done during their occupancy of the executive mansion.

A glance through the pending sundry civil bill, supplemented by the regular legislative and executive appropriation bill, discloses that Mr. Harrison is likely to be able to make both ends meet at the close of the coming fiscal year. As a starter, he has his salary of $50,000. There is a further sum of $25,000 allowed him, to spend as he sees fit, in repairing his rooms and making his domestic apartments comfortable in the matter of furniture. Sixteen thousand dollars or thereabouts is set aside to pay for his gas and electric lights. Three thousand dollars is allowed him for coal. To keep his greenhouses in order so as to furnish him with buttonhole bouquets and flowers to present to his friends, $7,000 is appropriated. A thousand dollars is allowed him for his front garden, and $5,000 for his back garden. If his kitchen pipes should happen to burst in the winter there is a $2,500 plumber's bill for him to draw upon.

He has no servants to provide except a cook and scullions and chambermaids. Congress furnishes him with a steward and everything else in the servant line, at a cost of about $15,000. He has not even to provide matches. The appropriation for fuel and lights distinctly specifies that it shall include matches. He has to buy his butcher's meat and groceries and his wine, however, when he gives a dinner party. Pretty well all else is given him. And lest there should be something overlooked, a contingent fund of $8,000, which he is at liberty to spend as he thinks proper, rendering no account to anybody, is added as a cap sheaf. The total appropriations for the domestic economy of the executive mansion, excluding the salaries of the private secretaries and clerks engaged solely on official business, foot up $132,600.

THE Indianapolis newspapers are charging that the census of that city is not being carefully taken. The enumerators have finished their work and hundreds of persons are turning up who have not been counted.

THE National Union contributed four beautiful floral offerings at the funeral of little Allen Harmeyer, the lad who was killed last week by being run over by a street car. The street car drivers of the Hanna street line and others also sent beautiful offerings, all of which made thankful the hearts of the grief-stricken parents, Mr. and Mrs. Henry J. Harmeyer.

The Clavis club, a chorus of ladies; and the Clef club, a chorus of gentlemen, were pleasantly entertained by Prof. W. F. Heath and wife last evening. The organizations have been instructed by the professor. Besides the parts taken by the clubs referred to numbers were rendered singly by Misses Josie Hartman, Grace Hayden, Jennie Ninde, Minnie Thompson; and Messrs. Nonnamaker and Mahin.

There are 40,000 primary schools in Russia.

For the cure of the inflammation and congestion called "a cold in the head" there is more potency in Ely's Cream Balm than in anything else it is possible to describe. This preparation has for years past been making a brilliant success as a remedy for cold in the head, catarrh and hay fever. Used in the initial stages of these complaints Cream Balm prevents any serious development of the symptoms, while almost numberless cases are on record of radical cures of chronic catarrh, after all other modes of treatment have failed.

There are 30,000,000 watermelons in Georgia this year.

CLOSING SCHOOL DAYS.

The Commencement Exercises of Westminster Seminary. Fort Wayne's Grand School for Girls.

The closing exercises of the Westminster seminary at the First Presbyterian church drew to the magnificent audience room of that edifice last evening a large and cultured assemblage, and as the great pipe organ pealed forth its silvery notes, under the skillful hands of Prof. C. F. W. Meyer, and the teachers and pupils of the seminary entered the church, marched slowly up the aisles and took seats reserved for them in front, the scene was a pretty one. In advance were two little misses carrying in their hands wands, from which floated ribbons of red, white and blue. The two graduates of the class—Miss Lida Baumgartner and Miss Harriet Schulze—followed and behind them came the principals of the school and the teachers and the pupils of the seminary, the latter attired in white and carrying bouquets of flowers.

The exercises of the evening were opened with prayer by Rev. J. M. Boggs, followed by a song from the Haydn quartette and the introductory address by Rev. D. W. Moffatt, D. D. The speaker spoke of the growth of the educational spirit in Indiana and in our own city, and paid a deserved tribute to Westminster, which was doing such a grand work for the girls.

He was followed by Rev. Meade C. Williams, D. D., in the address of the evening. It was an interesting and brilliant effort, and he urged upon his hearers many beautiful and practical thoughts. Gain an education and cultivate your minds, he said, not so you may become conspicuous in life's battle, but that you may be useful and that the world may be better by reason of your having lived in it.

Miss Tower then sang a beautiful solo and Miss Sharp, one of the principals of the schools, presented the graduating class with an appropriate speech and Dr. Moffatt conferred upon them the diplomas. The young ladies followed with well prepared and excellently delivered addresses, Miss Baumgartner delivered the "Vale" and Miss Schulze the "Salutamus." Mrs. D. B. Wells, one of the principals of the school, then delivered, in her own peculiarly pleasant and forcibly and interesting style, the closing address, using for her theme "The Stirrup Cup." She spoke briefly and then bade the young ladies goodbye, thanking the audience, the singers, the speakers and the friends of the institution generally for their kindnesses, and after a song by the Haydn quartet, the exercises closed with the benediction by Rev. J. L. Lepper.

A reception followed at the Westminister seminary from 10 to 12 o'clock. It was a brilliant affair and some three hundred guests were charmingly entertained. Refreshments were served and the hours spent in a social way and thus closed another year of this grand school for girls.

The seminary has become one of the educational institutions of the city whose annual commencements are looked forward to with rare pleasure. It was established in 1883 by Miss C. B. Sharp and Mrs. D. B. Wells, who are its present principals, and under whose supervision it has become one of the most valuable training schools for young ladies in the west. They purchased property in the western confines of the city and by a series of improvements have made the commodious buildings and grounds admirably adapted for the purpose to which it is devoted. It has become a pleasant home for their young lady students, who are surrounded with all the comforts and all the protecting influences of home life.

The course of study is comprehensive and valuable and embraces just what every young lady should know to fit her for the responsible duties of life, and the graduate is sent from its halls with a mind well stored with knowledge and a Christian character developed with the instructions received. The institution has an able corps of instructors, is in a flourishing condition and has a brilliant future. May Westminster Seminary live and grow with each passing year and may its instructors have Heaven's richest blessings showered upon them for the good work they are doing for the girls of our state.

That tired feeling now so often heard of, is entirely overcome by Hood's Sarsaparilla, which gives mental and bodily strength.

Gen. Crook as a Huntsman.

"Gen. Crook was very fond of hunting," said Lieut. Kennon, "and was one of the best shots I ever saw. When he was a young officer he always did the hunting for his mess. In those days sometimes the mess bills exceeded the officers' salaries, and I have heard Gen. Crook tell how they made him cadorer, and by his intimate knowledge of the Indians' economical methods of cooking, and his good luck at hunting, the mess was soon able to declare dividends. I have been with him on many hunting trips, and I never saw a better or a sleepier shot. Sage hens are not the easiest game to bag, and yet I have seen him repeatedly drop a bird out of a flock with each barrel; but not only that, he would kill a chicken every time. His eye was so quick that while aiming he could select the chicks instantaneously. With all his experience and trials Gen. Crook was as simple as a child. He was straightforward and truthful, and had no patience with concealment or trickery. He never broke his word to white man or red man."—*Washington Star.*

Vanity that Kills.

Overweening egotism is as potent a cause of suicide as any other. More than one couple have died in each other's arms with the desire and belief that their names will go down to posterity with the same fame that lingers over the tomb of Abelard and Heloise, and young men have exhausted their brains to connect letters that should create a sensation over their ashes. I recall one youth who left a long letter to say that in blew his brains out because he could not wait for natural death to reveal to him the mysteries of the next world; another who argued on page after page to demonstrate his right to make away with himself, and more than one couple who arranged their simultaneous exit with as much care as if they were on the stage with the world for an audience. A wretched vanity, but does not the wisest of men say that all is vanity with us poor mortals?

The Kabo corset that brings a woman to perfect form if she only laces it tight enough—for it never stretches or breaks its "bones" or rolls up—has soft eyelets that do not cut the laces.

Soft eyelets are loops of corset lace instead of metal eyelets.

If the Kabo corset fails in a year in any part but the steels—no way has yet been invented to make unbreakable steels—you get your money back from the store where you bought it.

You wear the Kabo corset two or three weeks; and, if not satisfactory, take it back and get your money again.

GREED OF GAIN

and thirst for pleasure. The ruling passion of the human family. In grasping after riches the brain is taxed, the nervous system strained. In the pursuit of pleasure the body is tortured by fashion's despotic whim; the hours designed for repose are devoted to exhausting revelry; the stomach is ruthlessly imposed upon; pure water, the natural drink for all created beings, is ignored, and liquid fire is substituted until, ere we are aware of it, disease has fixed its iron grasp upon us. Then we look for the "remedy." To the victim of these follies, we commend Dr. Tutt's Liver pills. They stimulate the liver, strengthen the nerves, restore the appetite and build up the debilitated body.

The ten-wheel express engines which the Baldwin locomotive works built for the Baltimore and Ohio road were guaranteed to haul seven passenger coaches up a 117-foot grade seventeen miles long at twenty-five miles an hour. The one which has just been put in service has more than met the guarantee, last week hauling with ease eight loaded coaches up this grade at the required speed. With these engines the weight on the drivers is 102,000 pounds. The total weight of the engine, without tank, is 133,000 pounds.

What Does it Mean?

"100 Doses One Dollar" means simply that Hood's Sarsaparilla is the most economical medicine to buy, because it gives more for the money than any other preparation. Each bottle contains 100 doses and will average to last a month, while other preparations taken according to directions, are gone in a week. Therefore, be sure to get Hood's Sarsaparilla, the best blood purifier.

The dancing teachers of the country are to meet in Washington and discuss new steps.

When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children she gave them Castoria.

A MARVELOUS PREMIUM.

THE MUTUAL LIFE INSURANCE COMPANY,

OF NEW YORK, SECURES IT.

Nearly $600,000 Paid by Members of one Family for Insurance in the Mutual.—The Most Stupendous Transaction Known in the History of Insurance.—"It has Never Been Done Before; It Never Will Be Done Again."

No. 709. New York, Dec. 24, 1889.

BANK OF NEW YORK.
National Bankers Association.

Pay to the order of L. C. HOPKINS, Genl Executive Agent

Five hundred and Seventy Eight Thousand, Three Hundred and Forty Five ——— LARS.

$578,345.00/100 — 29 DEC 28 1889. — CERTIFIED, Payable through New York Clearing House, N. B. A. — E. C. POTTER & CO. — E. C. PC ITTER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for Insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life's with the annuity feature added. Each policy was for the sum of $100,000 and the insured chose to make but one payment, thus commuting the cost. The insurance covered by the above mentioned premium payment of $578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and four members of his family. Mr. Theo. Havemeyer, is the Austrian Counsel General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son in-law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this Insurance.

First, that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected Life Insurance as offering more advantages and greater security than any other form of investment. Second That they had such faith in the management and stability of the Mutual Life Insurance company of New York, that they willingly entrusted to its care nearly $600,000 in cash without any security whatever, and only the PROMISE of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of $578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in merchantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that is'nt an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and sixty millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

FRUIT HOUSE PRICES FOR 1890.

This year opens favorable to the people, so far as the Sugar Market is concerned. Last season the great sugar trust had their grip on the market and made it ruinous to the purchaser—so much so that Sugars were advanced in 60 days at least 50 per cent. This is now over—the Sugar Trust is broken and Sugars have declined to a point lower than they ever were—the last reduction is 1 cent per lb.

We now offer Best Extra C., 6c. Best Standard A., 6¼c.
Powdered and Orushed, 7c. Granulated and Cut Loaf, 7c.

COFFEE, COFFEE—Rio, Java, Mocha and Roasted Coffee.

There has been little change in the Coffee Market the last three months. It is too high yet. The clique has control of the market and keeps prices up. We still sell our best Rio at 22c. lb. This we are enabled to do in consequence of our large purchases and selling direct to our customers—in this way saving the profit of the jobber and wholesale merchant.

Best Rio Coffee, 22c. lb. Choice Old Govt. Java, 27c. lb.
Best Green Mocha, 30c. lb. Best Roasted Rio, 25c. lb.
Best Roasted Java, 32c. lb. Best Roasted Mocha, 35c. lb.
Sampson Brand in Packages, 25c. Jersey Coffee in Packages, 26c.
Durham Coffee in Packages, 26c. Levering's Coffee, 26c. lb.

TEAS, TEAS—Young Hyson, Oolong and Japan.

The high price of Coffee has induced a great many to try Tea—and when it is considered that a pound of Tea can be had for the price of a pound of Coffee and that it will go twice as far, it is not to be wondered at that there is a great increase in our Tea Trade. The truth is we sell double the quantity we used to a few years ago. Our motto is selling large quantities at a small profit, for we purchase direct of the Importers and then in selling direct to our customers we save three profits—the speculator, jobber and the wholesale dealer. We sell a good, rich drawing Tea at 20c. lb., and one grade as low as 10c. lb.

Young Hyson Tea, 20c., 30c.; best, 50c. lb.
Oolong Tea, 30c.; best, 50c. lb.
Imperial Tea, 20c; good, 30c; best, 50c lb.
Gunpowder Tea, good, 30c. best, 50c lb.
Japan Uncolored, good, 30c; best, 50c lb.

THOUGHT HE WAS SMART.

But Circumstances Altered His Good Opinion of Himself.

During the present overflow of the Mississippi river a well dressed man, while picking his way through the woods, trying to avoid the water that was rapidly rising, came to a small knoll almost surrounded by the flood; and on the knoll he found a tall, lank fellow sitting on a log. The stranger, delighted at seeing a human being, ran up to the lank fellow and exclaimed:

"I never was gladder to see a man in my life. I have been in these woods nearly a day and a half. My horse and I went down with a caving bank; I managed to save myself, but couldn't save him. Now the question is, how are we going to get out of this infernal place?"

"Don't know," the lank fellow answered, "wallowing" his tobacco about in his mouth.

"Why, don't you know the woods?"

"Well, did know 'em putty well, but the high water has wiped all the roads out."

"Look here, the water is rising, and this is no time for foolishness. See, we are entirely surrounded."

"Yes, that's so (squirting a stream of tobacco juice through his teeth). Reckon we'll hatter wade."

"Do you know a place where the water is not very deep?"

"I did know yistiddy, but the water has riz powerful since then."

"How long have you been sitting here?"

"Set down here this mornin'. Come out to look for the cow an' got tired, an' my plan is allus to rest when I git tired. I have been it read outen the papers that a good many men die from overwork, an' seein' then I am mighty particklar."

"But how do you expect to get out of this place?"

"Don't know exactly."

"But you've got to know pretty soon, for don't you see how rapidly the water is rising?"

"Yes, 'tis comin' up right peart. You air a stranger down here, I reckon."

"Yes, haven't been here but a week, and if the Lord will only let me get out this time, I'll never come back. I wonder if I can wade out through there?"

"I reckon you can."

"I have a half notion to try it."

"But make it a whole one."

"I'll do it. I don't care to stand here till the water comes up round my neck. Well, good-by. If you want to stay here and be drowned it is no fault of mine."

"So long," the lank fellow replied, spitting through his teeth.

The stranger had waded about thirty feet when he lunged off over his head. He spluttered and floundered and finally got back on the knoll.

"Whew! that was awful!" he exclaimed. "You scoundrel, why didn't you tell me?"

"How did I know what sort of a wader you are? Some folks kin wade surprisin' an' then others kain't wade so well. I tuck you for one of the boss waders, but now I see you ain't."

"I ought to jump on you and beat you. I declare, I don't know what to do."

"Thought you was goin' to jum, on me."

"No, I don't want to hurt you. Look here; in less than a half hour from now this knoll will be under water."

"If I was goin' to bet, w'y I'd bet thutter way."

"And are you going to stay here and be drowned?"

"I kain't tell yit."

"You are a fool—that's what's the matter with you."

"Yes, I ain't a s'preme jedge, but I've got mo' sense than to go out in a woods that I don't know anything about an' git drowned."

"But you haven't got enough sense to get out of a woods that you do know sum'thing about."

"Oh, I think so." The lank fellow got up, went behind a tree, took up a canoe, and as he was preparing to shove it off remarked:

"I never feel with high water, cap'n, an' ef you buy land down here an' live on it awhile you'll l'arn a little sense yo'se'f. So long."

"What, are you going to leave me this way?"

"Yes, I've got rested now an' must go home an' tell the folks that I kain't find that fool cow."

He shoved off the canoe and got in. "For heaven's sake take me with you," the stranger implored.

"Oh, I reckon it's best not to—might spile you to ride with a fool."

"Come back, my friend, I was hasty."

"Yes, I sorter think you was."

"I didn't mean to call you a fool—I'm the fool."

"Am I a smart-man?"

"Indeed you are."

"The smartest man in this country?" the fellow asked, slowly paddling the canoe toward the knoll.

"Yes, the very smartest."

"Well, but am I the smartest man you ever seed?"

"Yes, I think you are."

"But you mustn't think—you must know it."

"Well, then, I know it."

"An' don't you think, or rather don't you know, that I would make a good governor?"

"Yes, I know you would."

"Or a president either?"

"Yes, you would make good anything."

"All right, my boy, now you may git in. Oh, I tell you it do a man a power of good to travel round in this part of the country. He l'arns faster than of he was in college."
—Opie P. Read in Arkansaw Traveler.

A Philistine's Suggestion.

A Proper Apology.

"That isn't a very good picture of the baby, is it, Lottie?"

"No, sir; but he isn't a very good baby."
